

Press release

Astana, July 04, 2023

On the current situation with emergency power supply failures at oil pumping stations of “KazTransOil” JSC and water pumping stations of “Main Waterline” LLP

Today as of 15:00. hours of Astana time, oil pumping stations (OPS) of “KazTransOil” JSC operate normally, with the exception of OPS Prorva, OPS Kosshagyl, OPS Karaton of the Kulsary Oil Pipeline Administration and OPS T. Kasymova, OPS Makat, OPS Martyshi of the Atyrau Oil Pipeline Administration, whose work has been restricted. The work of the other stations of “KazTransOil” JSC, where unscheduled shutdowns occurred because of a power outage, has been fully restored.

On July 3, 2023, as a result of an emergency shutdown of power unit No. 1 of the thermal power plant of MAEK LLP, there was a disruption in the power supply to consumers of the Mangistau and Atyrau power centers of the Western Zone of the UES of Kazakhstan. As a results of system accidents, unscheduled shutdowns occurred at several OPSs of “KazTransOil” JSC.

Also, as a result of an emergency situation, the following facilities of “Main Waterline” LLP were disconnected: VPS-5, VPS-8, WTP Kulsary, which led to a complete shutdown of the entire system of the Main water pipeline from the Kigach MWPS to the Karazhanbas WPS.

At that moment, work has been restored, all water pumping stations of “Main waterline” LLP are operating as normal.

For reference:

“KazTransOil” JSC is the national operator of the main oil pipeline. It is part of the NC “KazMunayGas” JSC group. “KazTransOil” JSC owns a diversified network of main oil pipelines 5.4 thousand km in length.
