Report on review of interim condensed consolidated financial statements

To the Shareholders of Kcell JSC

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Kcell JSC and its subsidiaries (together the "Group"), which comprise the interim condensed consolidated statement of financial position as at 31 March 2020, the related interim condensed consolidated statement of comprehensive income for the three-month period then ended, interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the three-month period then ended and selected explanatory notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with IAS 34, *Interim Financial Reporting*. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34, *Interim Financial Reporting*.

Chairman of the Management Board

Chief Financial Officer

Yuri Kharlamov

Kaspars Kukelis

For the three months period ended 31 March 2020

1. GENERAL INFORMATION

Kcell JSC (the "Company") was established as a limited liability partnership (GSM Kazakhstan OAO Kazakhtelecom LLP) on 1 June 1998 to design, construct and operate a cellular telecommunications network in the Republic of Kazakhstan, using the GSM (Global System for Mobile Communications) standard.

The Company's registered address is Samal-2, 100, Almaty, the Republic of Kazakhstan.

On 25 December 2010, the Committee of Communications, Informatization and Information under the Ministry of Investments and Development of the Republic of Kazakhstan signed an addendum to the existing GSM license, which provided the Group with a right to operate a 3G network. In December 2010, the Group launched 3G services in Nur-Sultan and Almaty. As at 1 January 2015, the Group provided all locations with a population of over 10,000 people with mobile services using UMTS/WCDMA based on the terms of the addendum.

On 27 August 2012, the Ministry of Justice registered the Company as a Joint Stock Company. Under Kazakhstani law, upon the conversion, retained earnings as at the date of the conversion became share capital of the Company and ceased to be available for distribution to shareholders.

On 13 December 2012, the Company successfully completed its offering of Global Depositary Receipts at the London Stock Exchange and common shares at the Kazakhstan Stock Exchange (hereinafter – the "KASE").

In 2016 the Group paid 26,000,000 thousand tenge for LTE radio frequencies. On 1 March 2016, the Group launched LTE in its network on the previously granted frequencies.

On 21 December 2018, the 75 percent stake in the Company owned by Telia Company was sold directly to Kazakhtelecom JSC (the "Parent"). As at 31 March 2020 the Company is controlled by Kazakhtelecom JSC. Kazakhtelecom JSC is controlled by the Government of the Republic of Kazakhtelecom's Sovereign Wealth Fund "Samruk-Kazyna" JSC ("Samruk-Kazyna") which owns 51% of Kazakhtelecom's controlling shares.

As at 31 March 2020 and 31 December 2019, the shareholders of the Company are presented as follow:

	31 March	
	2020	31 December
	(unaudited)	2019
Kazakhtelecom JSC	75.00%	75.00%
Raiffeisenbank JSC	11.81%	11.82%
Other	13.19%	13.18%
	100.00%	100.00%

As at 31 March 2020 and 31 December 2019, the Company has the following principal subsidiaries:

	31 March 2020 (unaudited)	31 December 2019
KazNet Media LLP	100%	100%
KT-Telecom LLP	100%	100%

The accompanying consolidated financial statements include the financial statements of Kcell JSC and its subsidiaries (further referred as to "the Group").

The interim condensed consolidated financial statements were authorised for issue by the Chairman of the Management Board on 25 April 2020.

2. BASIS OF PREPARATION

The interim condensed consolidated financial statements for the three months ended 31 March 2020 have been prepared in accordance with IAS 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2019 and for the year then ended. The interim condensed consolidated financial statements are presented in Kazakhstan tenge, and all amounts are rounded to nearest thousands, except otherwise indicated.

Going concern

The interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes continuation of the course of business, realization of assets and settlement of liabilities in the normal course of business.

As of 31 March 2020 the Group's current liabilities exceeds its current assets by 2,827,875 thousand tenge. The management believes that the Group will operate as going concern, and in forming this view, management has considered the current intention and financial position of the Group. In particular, in March 2020 the Group concluded additional agreement with Halyk Bank JSC to increase undrawn amount of credit line to 42,000,000 thousand tenge and extended availability of credit line due 31 December 2021.

Foreign currency translation

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are retranslated at the official rate established by the "KASE" and published by the National Bank of the Republic of Kazakhstan (the "NBRK") at the reporting date. All differences are recognized in the interim condensed consolidated statement of comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

The following table summarises the foreign currency exchange rates for tenge:

	31 March	31 December
	2020	2019
US dollar	447.67	382.59
Euro	491.36	429
Russian rouble	5.74	6.16

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

New and amended standards and interpretations

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2019, except for the adoption of new standards effective as at 1 January 2020. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments and interpretations apply for the first time in 2020, but do not have an impact on the interim condensed consolidated financial statements of the Group.

IFRS 3: Definition of a Business

The amendment to IFRS 3 clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. Furthermore, it clarified that a business can exist without including all of the inputs and processes needed to create outputs. These amendments had no impact on the consolidated financial statements of the Group, but may impact future periods should the Group enter into any business combinations.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New and amended standards and interpretations (continued)

IFRS 7, IFRS 9 and IAS 39: Interest Rate Benchmark Reform

The amendments to IFRS 9 and IAS 39 *Financial Instruments: Recognition and Measurement* provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument. These amendments had no impact on the consolidated financial statements of the Group as it does not have any interest rate hedge relationships.

IAS 1 and IAS 8: Definition of Material

The amendments provide a new definition of material that states "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity."

The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. These amendments had no impact on the consolidated financial statements of, nor is there expected to be any future impact to the Group.

Conceptual Framework for Financial Reporting issued on 29 March 2018

The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The purpose of the Conceptual Framework is to assist the IASB in developing standards, to help preparers develop consistent accounting policies where there is no applicable standard in place and to assist all parties to understand and interpret the standards.

The revised Conceptual Framework includes some new concepts, provides updated definitions and recognition criteria for assets and liabilities and clarifies some important concepts.

These amendments had no impact on the consolidated financial statements of the Group.

Operating environment

Kazakhstan continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Kazakhstan economy will largely depend on these reforms, as well as on the effectiveness of the Government's actions in the area of economy, financial and monetary policy.

Coronavirus pandemic and market conditions

Starting from March 2020, there has been significant volatility in the stock, currency and commodity markets, including a drop in oil prices and a devaluation of tenge against the US dollar and the euro. Moreover, in connection with the recent rapid development of the coronavirus pandemic (COVID-19), on 16 March 2020 Kazakhstan introduced state emergency measures during the period through 16 April 2020, and subsequently extended until 30 April 2020, including quarantine in major cities, which had a significant impact on the level and scale of business activity. It is expected that both the pandemic itself and measures to minimize its consequences can affect the activities of companies from various industries.

The Group evaluated that those events may have negative impact on revenue from sales of handsets, however it would be compensated by increased demand for voice and data services that the Group already observed during three month period ended 31 March 2020. The Group monitored consumer behavior and credit worthiness of the subscribers and concluded that cash collections are not significantly affected since the Group provides mainly services on pre-paid basis. In addition, the Group analysed any possible impact of worldwide lockdown on importing goods and services, including telecommunication equipment and maintenance and technical support services for its software systems. The Group believes that there is no significant risk in operation of software and telecommunication equipment due to lack of technical maintenance and support.

The Group believes that there were no impairment indicators of its long-term assets as at 31 March 2020. However, the Group evaluated that at the moment the quantitative effect of pandemic cannot be estimated with a sufficient degree of confidence due to the uncertainty as to the severity and duration of the pandemic. The Group will continue to monitor the situation closely.

23. COMMITMENTS AND CONTINGENT LIABILITIES (continued)

Capital commitments

The Group generally enters into contracts for the completion of construction projects and purchase of equipment. As at 31 March 2020, the Group had contractual commitments totaling 8,006,158 thousand tenge, excluding VAT (unaudited) (as at 31 December 2019: 5,213,491 thousand tenge, excluding VAT).

Taxation

Tax legislation and regulatory framework of the Republic of Kazakhstan are subject to constant changes and allow for different interpretations. Instances of inconsistent opinions between local, regional and national tax authorities are not unusual. The current regime of penalties and interest related to reported and discovered violations of Kazakhstan's tax laws are severe. Penalties are generally 80% of the taxes additionally assessed and interest is assessed at the refinancing rate established by the National Bank of the Republic of Kazakhstan multiplied by 1.25. As a result, penalties and interest can amount to multiples of any assessed taxes. Fiscal periods remain open to review by the authorities in respect of taxes for five calendar years preceding the year of review.

Because of the uncertainties associated with Kazakhstan's tax system, the ultimate amount of taxes, penalties and interest, if any, may be in excess of the amount expensed to date and accrued at 31 March 2020. Management believes that as at 31 March 2020 its interpretation of the relevant legislation is appropriate and that it is probable that the Group's tax positions will be sustained, except as provided for or otherwise disclosed in these interim condensed consolidated financial statements.

Tax audit for $2012 - 3^{rd}$ quarter 2015

In July 2017, the Kazakhstan tax authority completed its comprehensive tax audit for the period of 2012 - 3rd quarter 2015. Based on the results of the tax audit, the tax authority made an accrual of additional taxes and fines and penalties in the total amount of 9,008,002 thousand tenge, of which 5,789,678 thousand tenge is for unpaid taxes and 3,218,324 thousand tenge represents fines and penalties. The Group did not agree with some results of tax audit and filed an appeal.

In January 2018, Kcell disputed the results of the tax authority in the First Instance Court and the Group's appeal was dismissed. In June 2018, the Court of Appeal reviewed the appeal claim and left the unfavorable ruling of the First Instance Court in force. Although the decision was binding, the Group reserved the right to further appeal it in the Supreme Court. On 5 November 2018, the Group filed a petition to the cassation instance of the Supreme Court of the Republic of Kazakhstan. On 5 December 2018, the petition was dismissed by the Supreme Court of the Republic of Kazakhstan.

In February 2019, the Group appealed to the Supreme Court of the Republic of Kazakhstan. Based on resolution of the Supreme Court of the Republic of Kazakhstan dated 23 July 2019, the appeal of the Group was partially satisfied. Precisely, First Instance Court's act in the part of concerning following cases was cancelled:

- Additional charge on withholding tax for services provided by non-resident legal entities in the amount of 2,196,555 thousand tenge;
- Additional VAT on software technical support services provided by non-resident legal entities in the amount of 779,916 thousand tenge;
- Related fines and penalties in the amount of 2,839,574 thousand tenge.

As at 31 March 2020, the Group had remaining liability for fine and penalty in the amount of 175,095 thousand tenge (as at 31 December 2019: 187,793 thousand tenge).

Group recognized income from reversal of the tax and related fines and penalties provision in the total amount of 12,698 thousand tenge in the consolidated statement of comprehensive income for the period ended 31 March 2020 due to expiration of the limitation period.

Tax risks assessment

In the beginning of 2020 the Group performed recalculation of the tax risk provisions recognized by the Group in previous years. Accordingly, the Group recognised reversal of provision on VAT and personal income tax in the amount of 256,782 thousand tenge and 210,827 thousand tenge, respectively. In addition, the Group recognized reserve on CIT expenses in the amount of 488,380 thousand tenge in the consolidated statement of comprehensive income for three months ended 31 March 2020 (*Note 20*).

New technical regulations

Order No. 91 of the Committee of the National Security dated 20 December 2016 on approval of the Technical Regulations *General Requirements to the Telecommunication Equipment in Ensuring Conducting of Operative Search Measures, Collection and Storage of Subscribers' Information* was published on 7 February 2017 and came into force on 8 February 2018. According to the new regulations, there are additional requirements to the telecommunication equipment that include expansion of technical capabilities of equipment to conduct operative search activities, collection and storage of subscribers' information (hereinafter – "ORA"). Currently, the Group is in the process of modernization of the telecommunication equipment of the Kcell's network in order to comply with the requirements of the Technical Regulations.

Cases related to the abuse of dominant position

Tariffication of Kcell's mobile Internet services

On 19 October 2018, the Committee on Regulation of Natural Monopolies, Protection of Competition and Consumer Rights of the Ministry of National Economy of the Republic of Kazakhstan ("Committee") initiated administrative proceedings against the Group for an alleged administrative violation related to the abuse of its dominant position in 2017. The potential fine, which can be imposed by the court, constitutes approximately 2,000,000 thousand tenge.

According to the Committee, the violation resulted in the establishment of different prices for Kcell's mobile Internet access service, when the data allowance was exceeded or the monthly subscription fee was not paid in a timely manner. In addition, the Committee issued an order for the Group to return to Kcell brand subscribers all fees charged in 2017 when the monthly data allowance was exceeded and when the monthly subscription fee for mobile Internet access services had not been paid.

The Group did not agree with the order issued by the Committee. On 3 July 2019, the Group appealed to the Court. The management of the Group believed that the appeal would be successful and assessed the probability of outflow of cash as possible.

On 25 October 2019, Specialised Inter-district Economic Court of Almaty issued the resolution to cancel administrative proceedings due to the lack of an offense. However, the Committee has the right to appeal within 180 days after announcement of the resolution. On 14 April 2020, the Committee appealed the decision of Specialised Inter-district Economic Court of Almaty. The case was initiated and submitted to the judge for preliminary consideration of the motion for re-examination of the case. The cassation court hearing has not been appointed yet. The management of the Group believes that the Committee's claims against the Group are not supported and an outflow of economic resources related to the above matter is remote.

Billing cycle of mobile phone plans

On 27 December 2019, the Company received a notification from the Committee on Regulation and Protection of Competition of the Ministry of National Economy of the Republic of Kazakhstan ("Committee") prescribing that the Group should bring its existing and legacy mobile phone plans in line with Rules for provision of mobile services ("Rules"), namely to set a calendar month as default billing cycle, as follows from the definition of the term "accounting period". According to the Committee, by establishing a one-day, a weekly, a 28-day or a 30-day billing cycle on mobile phone plans the Group breaches article 174.1 of the Business Code of the Republic of Kazakhstan. The Committee also sees the reduction of billing cycle as possible abuse of the dominant position through violation of the rights of consumers.

The management of the Group believes that the Committee's claims against the Group are not supported. As of 31 March 2020, the Group did not receive an act of the Committee on the investigation initiation and assessed the probability of the investigation and any outflow of economic resources related to the above matter as remote.

24. SEASONALITY OF OPERATIONS

The Group's services are impacted by seasonal trends throughout the year. Revenue and operating profits in the seconds half of year are usually expected to be higher than in the first six months. Higher revenue during the period from July to September is mainly attributable to increased demand for telecom services during the peak holiday season. Higher revenue also occurs in the months of December, due to increased demand for telecom services and equipment from subscribers.

This information is provided to allow for a better understanding of the Group's results; however, management has concluded that these impacts on the results are not "highly seasonal" as considered by IAS 34.

25. SUBSEQUENT EVENTS

On 10 April 2020 the President of Kazakhstan extended the emergency situation period until 30 April 2020. The Group is analysing the possible impact of extension of emergency situation on the financial statements and considering alternatives to minimise negative impact on the operations of the Group.

On 23 April 2020, the Group obtained loan in the amount of 15,000,000 thousand tenge within credit line agreement with Halyk Bank of Kazakhstan JSC with a maturity of 36 months and a fixed interest rate of 11.5% per annum.
