Report on review of interim condensed consolidated financial statements

To the Shareholders of Kazakhtelecom JSC

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Kazakhtelecom JSC and its subsidiaries (together the "Group"), which comprise the interim condensed consolidated statement of financial position as at 30 June 2022, the related interim condensed consolidated statements of comprehensive income for the three and six-month periods then ended, interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the six-month period then ended and selected explanatory notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with IAS 34, *Interim Financial Reporting*. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

The interim condensed consolidated financial statements for the three and six month period ended 30 June 2022 have been prepared in accordance with IAS 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements as at 31 December 2021 and for the year then ended. The interim condensed consolidated financial statements are presented in Kazakhstan tenge, and all amounts are rounded to nearest thousands, except when otherwise indicated.

Going concern

The interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes continuation of the course of business, realization of assets and settlement of liabilities in the normal course of business.

Foreign currency translation

The interim condensed financial statements of the Group are presented in tenge, which is the functional currency of the Company and its main subsidiaries. Tenge is the currency of the primary economic environment in which the Company and its main subsidiaries operate. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)**2. BASIS OF PREPARATION (continued)****Foreign currency translation (continued)**

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date when the transaction first qualifies for recognition criteria. Monetary assets and liabilities denominated in foreign currency are translated at the official exchange rate ruling at the reporting date established by

Kazakhstan Stock Exchange ("KASE") and published by the National Bank of the Republic of Kazakhstan ("NBRK"). All translation differences are recognized in the interim condensed consolidated statement of comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Foreign exchange rates are presented in the following table:

	30 June 2022 (unaudited)	31 December 2021
US dollar	470.34	431.80
Euro	490.47	489.10
Russian rubles	8.98	5.76

The functional currency of foreign operation KT-IX LLC (Russian Federation) is Russian rubles. During consolidation the assets and liabilities of foreign operation are translated into tenge at the rate of exchange prevailing at the reporting date and its statement of comprehensive income is translated at exchange rates prevailing at the date of the transactions. The exchange differences arising on the translation are recognised in other comprehensive income.

The following subsidiaries have been included in these interim condensed consolidated financial statements:

	Country of incorporation	Percentage ownership	
		30 June 2022 (unaudited)	31 December 2021
Khan Tengri Holding B.V.	Netherlands	100.00%	100.00%

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**New and amended standards and interpretations**

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2021, except for the adoption of new standards effective as of 1 January 2022. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments apply for the first time in 2022, but do not have an impact on the interim condensed consolidated financial statements of the Group.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****New and amended standards and interpretations (continued)***Onerous Contracts – Costs of Fulfilling a Contract – Amendments to IAS 37*

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Group cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The amendments specify that when assessing whether a contract is onerous or loss-making, an entity needs to include costs that relate directly to a contract to provide goods or services include both incremental costs (e.g., the costs of direct labour and materials) and an allocation of costs directly related to contract activities (e.g., depreciation of equipment used to fulfil the contract as well as costs of contract management and supervision). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. These amendments had no impact on the interim condensed consolidated financial statements of the Group as the Group does not have any onerous contracts.

Reference to the Conceptual Framework – Amendments to IFRS 3

The amendments replace a reference to a previous version of the IASB's Conceptual Framework with a reference to the current version issued in March 2018 without significantly changing its requirements. The amendments add an exception to the recognition principle of IFRS 3 Business Combinations to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets or IFRIC 21 Levies, if incurred separately. The exception requires entities to apply the criteria in IAS 37 or IFRIC 21, respectively, instead of the Conceptual Framework, to determine whether a present obligation exists at the acquisition date. The amendments also add a new paragraph to IFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date. These amendments had no impact on the interim condensed consolidated financial statements of the Group as there were no contingent assets, liabilities and contingent liabilities within the scope of these amendments arisen during the period.

Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16

The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment, any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss. These amendments had no impact on the interim condensed consolidated financial statements of the Group as there were no sales of such items produced by property, plant and equipment made available for use on or after the beginning of the earliest period presented.

IFRS 1 First-time Adoption of International Financial Reporting Standards – Subsidiary as a first-time adopter

The amendment permits a subsidiary that elects to apply paragraph D16(a) of IFRS 1 to measure cumulative translation differences using the amounts reported in the parent's consolidated financial statements, based on the parent's date of transition to IFRS, if no adjustments were made for consolidation procedures and for the effects of the business combination in which the parent acquired the subsidiary. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of IFRS 1. These amendments had no impact on the interim condensed consolidated financial statements of the Group as it is not a first-time adopter.

IFRS 9 Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. There is no similar amendment proposed for IAS 39 Financial Instruments: Recognition and Measurement. These amendments had no impact on the interim condensed consolidated financial statements of the Group as there were no modifications of the Group's financial instruments during the period.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****New and amended standards and interpretations (continued)***IAS 41 Agriculture – Taxation in fair value measurements*

The amendment removes the requirement in paragraph 22 of IAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of IAS 41. These amendments had no impact on the interim condensed consolidated financial statements of the Group as it did not have assets in scope of IAS 41 as at the reporting date.

4. SEGMENT INFORMATION

For management purposes, the Group represents business units based on the organizational structure of the Group and has reportable operating segments as follows:

- Rendering fixed-line telecommunication services by business units of Kazakhtelecom JSC and Vostoktelecom LLP;
- Rendering mobile telecommunication services in GSM and LTE standards by business units of Khan Tengri Holding B.V. and Kcell JSC.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the interim condensed consolidated financial statements.

The following tables disclose revenue and profit information for the Group's operating segments for the three and six months ended 30 June 2022 and 2021.

8. IMPAIRMENT TESTING**Goodwill**

Goodwill is tested by the Group for impairment annually as at 31 December and when circumstances indicate the carrying value may be impaired. The Group's impairment test for goodwill is based on value-in-use calculations. The key assumptions used to determine the recoverable amount for the different cash generating units were disclosed in the annual consolidated financial statements for the year ended 31 December 2021.

The Group considers the relationship between its market capitalisation and its book value, among other factors, when reviewing for indicators of impairment.

As at 30 June 2022 there were no indicators for impairment of all CGUs, including those CGUs to which goodwill was allocated, therefore, management has not updated any of impairment calculations

As at 30 June 2022 and 31 December 2021, number of common and preferred shares issued net of reacquired shares was 10,706,024 and 298,785 shares, respectively.

Preferred shares

Holders of preferred shares are entitled to receive annual cumulative dividends of 300 tenge per share, and not less than the amount of the dividends per share paid to holders of common shares. Payment of preferred shares dividends does not require a resolution of Kazakhtelecom JSC shareholders meeting. The discounted value of future cash flows of annual cumulative dividends is recorded as a financial liability as at 30 June 2022 in the amount of KZT 814,868 thousand (31 December 2021: KZT 814,868 thousand).

Dividends

The preferred shares earn a non-discretionary dividend of 300 tenge per share in accordance with the Company's charter documents. Preferred shares are considered to be compound financial instruments, and accordingly the liability and equity components are presented separately in the consolidated statement of financial position. Dividends in the amount of KZT 44,818 thousand were accrued as at 30 June 2022 (at 30 June 2021: KZT 44.818 thousand) and are recorded as interest expenses in the interim condensed consolidated statement of comprehensive income (*Note 24*).

NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)**14. EQUITY (continued)****Other reserves**

According to the Company's Charter, the Company created a reserve capital equal to 15% of the authorized share capital. This reserve capital was created through appropriation of the retained earnings. There were no movements in the reserve capital at 30 June 2022 and at 31 December 2021.

Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of financial statements of the subsidiaries, whose functional currency is not tenge and whose financial statements are included in these interim condensed consolidated financial statements in accordance with the accounting policy disclosed in *Note 2*.

Earnings per share

Basic earnings per share are calculated by dividing net profit for the year attributable to common equity holders of the Parent (after adjusting for the after-tax amount of dividends on preferred shares) by the weighted average number of common and preferred shares outstanding during the year.

Diluted earnings per share are equal to basic earnings per share, as the Group does not have any dilutive potential common shares.

The following tables reflect profit and share data used in the basic and diluted earnings per share computations:

The cost of common shares, calculated in accordance with the requirements of the KASE (continued)

Another requirement for disclosure is the amount of the dividends payable to owners of preferred non-voting shares. The carrying book value of one preferred non-voting share is calculated as the sum of the preferred non-voting shares in the equity and debt component of preferred non-voting shares, divided by the number of preferred non-voting shares. At the same time, according to the methodology of KASE, the dividend payable on preferred shares, which are not paid due to the lack of up-to-date information about the shareholders, their payment details, are not taken into account. As at June 2022, this indicator amounted to 3,727 tenge (as at 31 December 2021: 3,727 tenge).

Government grants at the end of the period	23,603,817	–

Set out below are the carrying amounts of non-current and current government grants:

<i>In thousands of tenge</i>	30 June 2022 (unaudited)	31 December 2021
Current portion	4,587,020	4,202,083
Non-current portion	19,016,797	14,596,405

In 2021 the Government approved the changes to the Rules for the assignment of frequency bands, radio frequencies, operation of radio-electronic means and high-frequency devices (“the Rules”), based on which the Group is eligible for government grants in form of 90% reduction in the annual fee for use of radio frequencies from 1 January 2020 till 1 January 2025. The government grants are subject to conditions, namely financing of the projects related to broadband internet in rural and urban areas. If the financing of the projects related to broadband internet is lower than the amount of the tax incentive received, the Group should pay the annual fee equal for use of radio frequencies to the amount of unfulfilled obligations to the authorities.

The funds released as a result of reduction in the annual fee for use of radio frequencies for the six months period ended 30 June 2022 in the amount of KZT 7,588,599 thousand were used by the Group for the purchase and construction of certain items of property and equipment (mainly base stations). Government grants related to assets are recognized as deferred income that is recognised in profit or loss on a systematic basis over the useful life of the asset. As at 30 June 2022 the balance of government grants was equal to KZT 23,603,817 thousand, and part of the government grants released to the profit and loss over the period necessary to match the related depreciation charges equal to KZT 2,783,270 thousand.

As of 30 June 2021 there were no reasonable assurance that the Group complies with the conditions attached to the government grant as the methodology for recognizing the expenditures related to the financing of the broadband internet projects has not yet been approved. Thus, the government grants were not recognized as of 30 June 2021.

As at 30 June 2022 there are no unfulfilled conditions or contingencies attached to these grants.

Valuation techniques and assumptions

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the financial statements.

Assets for which fair value approximates carrying value

For financial assets and financial liabilities that are liquid or having a short term maturity (less than three months) it is assumed that their fair value approximates to the carrying amount. This assumption is also applied to demand deposits and savings accounts without a specific maturity.

Financial liabilities carried at amortised cost

The fair value of loans obtained is measured by discounting future cash flows using rates currently existing for outstanding amounts with similar terms, credit risk and maturity.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)

31. COMMITMENTS AND CONTINGENCIES**Operating environment**

In Kazakhstan, economic reforms and the development of the legal, tax and administrative infrastructure that meets the developed markets are still in process. The future stability of the Kazakhstan economy will largely depend on these reforms, as well as on the effectiveness of the Government's actions in the area of economy, financial and monetary policy.

Capital commitments

The Group generally enters into contracts for the completion of construction projects and purchase of telecommunication equipment. As at 30 June 2022, the Group had contractual obligations in the total amount of KZT 38,809,194 thousand, including VAT (31 December 2021: KZT 45,138,707 thousand, including VAT) mainly related to purchase of telecommunication equipment and construction of telecommunication network.

License commitments

Under the terms of certain licenses on the provision of wireless telecom services, the Group has certain obligations in terms of coverage area of its network. The Group is obliged to expand the cellular telecommunication coverage to the regions along the major highways and small-sized towns and urban-type communities of the Republic of Kazakhstan. The Group's management believes that the Group is in compliance with the terms of the licenses.

Taxation

Tax legislation and regulatory framework of the Republic of Kazakhstan are subject to constant changes and allow for different interpretations. In addition, management believes that international agreements, under which the Group works with non-residents residing in International Telecommunication Union, and which provide for certain tax exemptions, have a priority over national tax legislation. Instances of inconsistent opinions between local, regional and national tax authorities are not unusual. The current regime of penalties and interest related to reported and discovered violations of Kazakhstan's tax laws are severe.

Penalties are generally 50-80% of the taxes additionally assessed and interest is assessed at the refinancing rate established by the National Bank of the Republic of Kazakhstan multiplied by 1.25. As a result, penalties and interest can amount to multiples of any assessed taxes. Fiscal periods remain open to review by the authorities in respect of taxes for five calendar years preceding the year of review.

Because of the uncertainties associated with Kazakhstan's tax system, the ultimate amount of taxes, penalties and interest, if any, may be in excess of the amount expensed to date and accrued at 30 June 2022. Management believes that as at 30 June 2022 its interpretation of the relevant legislation is appropriate and that it is probable that the Group's tax positions will be sustained, except as provided for or otherwise disclosed in these interim condensed consolidated financial statements. .

New Technical Regulations

Order No. 91 of the Committee of the National Security dated 20 December 2016 on approval of the *Technical Regulations General Requirements to the Telecommunication Equipment in Ensuring Conducting of Operative Search Measures, Collection and Storage of Subscribers' Information* was published on 7 February 2017 and came into force on 8 February 2018. According to the new regulations, there are additional requirements to the telecommunication equipment that include expansion of technical capabilities of equipment to conduct operative search activities, collection and storage of subscribers' information (hereinafter – "ORA").

As at 30 June 2022, the Group partially implemented modernization and expansion of license and port capacity for the total amount of KZT 4,390,109 thousand. The Group plans to complete expansion in full in 2022 and expect that total amount of capital expenditures in respect to modernization and expansion will be equaled to KZT 7,644,748 thousand.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)**32. COMMITMENTS AND CONTINGENCIES (continued)****5G services**

In accordance with the Order of Committee of competition protection of the Ministry of national economics, the Group has an obligation to start providing 5G services not later than 31 December 2022.

Protests in Kazakhstan

On 2 January 2022 protests started in Mangystau region of Kazakhstan related to significant increase in the liquified natural gas retail price. These protests spread to other cities and resulted in riots, damage to property and loss of life. On 5 January 2022 the government declared a state of emergency.

As a result of the above protests and state of emergency the President of Kazakhstan has made certain public announcements regarding possible measures including amendments to the tax legislation, introducing measures for financial stability, controlling and stabilizing the inflation rate and the tenge exchange rate.

During the protests, six Kcell Stores located in Almaty and Almaty region, were looted and two large offices of the Group were attacked. Also, several base stations of Khan Tengri Holding B.V. were burned out in Almaty city.

The Management of the Group formed operational headquarters due to state emergency announcement for timely decision making on operational issues for uninterrupted communication of subscribers and facilitate the Government with urgent actions.

Providing subscribers with continuous cellular communications was a priority of the Group and the Management decided to support its subscribers including small and medium sized businesses during the state of emergency. During the state of emergency declared throughout Kazakhstan, and until the end of January 2022, corporate clients of Kcell and MTS LLP with a lack of balance on their account were not limited to communication and access to the Internet.

As a result of the above protests and state of emergency the President of Kazakhstan has made certain public announcements regarding possible measures including amendments to the tax legislation, introducing measures for financial stability, controlling and stabilizing the inflation rate and the tenge exchange rate.

On 10 January 2022 the National Security Committee of Kazakhstan reported that the situation in the country has stabilized and was under control. On 19 January 2022 the state emergency was lifted.

The Group incurred losses from those events in amount of 553 million tenge that represents robbery of inventories (goods for resale) and damage of stores, which was recognized within other operating expenses in interim condensed consolidated statement of comprehensive income for six months ended 30 June 2022.

Events in Ukraine and Coronavirus pandemic

The war in Ukraine has had a significant negative impact on the global economic outlook. In response to the offensive, extensive sanctions have been imposed on Russia that largely exclude the country from the international financial markets and significantly curtail trade in goods. These sanctions are intended to have a negative economic impact on the Russian Federation. The Group's business activities and hence its results of operations and financial position are not significantly impacted by the consequences of the war in Ukraine, as the Group does not operate any networks in Russia or Ukraine.

Due to geopolitical events around Ukraine and Russia, on 24 February 2022, oil prices exceeded \$100 per barrel. On 23 February 2022, the exchange rate of tenge against the US dollar began to weaken sharply. On 24 February 2022, the National Bank of the Republic of Kazakhstan decided to raise the base rate by 3.25 percentage points to 13.50% while maintaining the +/-1% band.

In addition, the development of the global economy continues to be impacted by the coronavirus pandemic. Due to the spread of the Omicron variant in China, largescale lockdowns have been imposed in Shanghai and other major Chinese cities. Although the pandemic has only had a limited negative impact on the telecommunications sector so far, if the global pandemic were to re-escalate, it could lead to prolonged and increased supply-side shortages. However, visitor and roaming revenues increased slightly thanks to travel returning to more normal levels despite the coronavirus pandemic.

Possible future effects on the measurement of individual assets and liabilities due to war in Ukraine and coronavirus pandemic are being analyzed on an ongoing basis. It is not yet possible to assess with certainty how the Group will be indirectly affected, in particular by the impact on the global economy. The overall economic outlook has deteriorated significantly as a result of the extensive sanctions and limitations on trade in goods. Based on experience so far, the Group expects the war in Ukraine and coronavirus pandemic to only impact business to a limited extent going forward.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)

31. COMMITMENTS AND CONTINGENCIES (continued)**Government grant related to frequency fee**

The Group has submitted consolidated report on expenditures used to finance broadband projects access to the Internet in urban and rural areas included capital and operational costs that are necessary for the provision of broadband Internet access services in urban and rural settlements throughout the territory of the Republic of Kazakhstan. Management believes that there are no unfulfilled conditions or contingencies attached to these grants.

In case if, based on the results of the audited information, the fact of non-fulfillment by the telecom operator of obligations to allocate at least released funds from the reduction of the corresponding fee rate to finance broadband Internet access projects in urban and rural areas is confirmed, the authorized body in the field of communications not earlier than one year after of the year following the reporting year, recalculates the amount of the annual fee for the use of frequency fee for the reporting year, which should be proportional to the unfulfilled volume of financial obligations for this reporting year.
