Astana, January 6, 2014

“KazTransOil” JSC informs about the approval by the Republic of Kazakhstan Agency on Regulation of Natural Monopolies and the Ministry of Oil and Gas of the Republic of Kazakhstan of the List of services technologically associated with regulated services (goods, works) of transportation of oil and (or) petroleum products by pipelines

“KazTransOil” JSC informs about the approval by the Republic of Kazakhstan Agency on Regulation of Natural Monopolies (Agency order #404-OD dated December 30, 2013) and the Ministry of Oil and Gas of the Republic of Kazakhstan (Ministry order #224 dated December 30, 2013) of the List of services technologically associated with regulated services (goods, works) of transportation of oil and (or) petroleum products by pipelines. The Joint Order of the Republic of Kazakhstan Agency on Regulation of Natural Monopolies and the Ministry of Oil and Gas of the Republic of Kazakhstan was agreed by the Ministry of economy and Budget Planning of the Republic of Kazakhstan.

The List of services technologically associated with regulated services (goods, works) of transportation of oil and (or) petroleum products by pipelines includes:

- Operation and technical maintenance of main pipelines, that belong to other legal entities;
- Oil heating at the process of unloading;
- Additional oil heating at the process of depressant adding;
- Oil substitution (SWOP).

The Joint Order comes into force after the state registration and is applied to relations arising from January 1, 2014.

The Joint Order of the Ministry of Energy and Mineral Resources of the Republic of Kazakhstan (Ministry order #147 dated May 10, 2006) and the Republic of Kazakhstan Agency on Regulation of Natural Monopolies (Agency order #113-OD dated April 18, 2006) “On the approval of the List of services technologically associated with regulated services (goods, works) of transportation of oil and (or) petroleum products by pipelines” was terminated.
