### **The operation of the Astrakhan-Mangyshlak water pipeline restored**

On September 12, the repair of a defective section of the Astrakhan-Mangyshlak main water pipeline was completed. Water supply is carried out in accordance with the established plan. Restoration work was carried out with the involvement of employees of KazTransOil JSC, which provides services for maintenance and repair of the water pipeline.

In the Zhylyoi district of Atyrau region on September 10, 2020, the pipe of the main water pipeline «Astrakhan-Mangyshlak» (owned by «Magystralnyi Vodovod» LLP) was depressurized.

«Magystralnyi Vodovod» LLP is included into KazTransOil JSC. Manages the main water pipeline and adjacent water distribution networks with a total length of 1945,1 km. It provides water to the population of Atyrau and Mangistau regions, and also delivers water to the Uzen, Zhetybai, Karazhanbas, Kalamkas and Tengiz oil fields.

#### **For reference:**

*KazTransOil JSC is the national operator of the Republic of Kazakhstan for the main oil pipeline. It is part of the KazMunayGas group of companies. It owns a diversified network of main oil pipelines with a length of 5,4 thousand km. Production facility of KazTransOil JSC is located in Shymkent, Karaganda, Pavlodar, Turkestan, North Kazakhstan, Atyrau, Mangistau, West Kazakhstan, Kyzylorda, Almaty and Aktobe regions of Kazakhstan. It transports oil to Kazakhstan's refineries and for export in 5 directions: the Atyrau – Samara and Kazakhstan-China oil pipelines, the port of Aktau (loading oil into tankers), the railway (loading into tanks), and transshipment to the CPC system.*
