KazTransOil JSC’s subsidiary ships first batch of Kazakhstani ammonium phosphate for export from Batumi Port

Batumi Sea Port LLC, a subsidiary of KazTransOil JSC (managed exclusively by Batumi Oil Terminal LLC), has successfully transshipped 3,000 tons of Kazakhstani ammonium phosphate for export.

This marks the first-ever export of this mineral fertilizer from Batumi Sea Port LLC via the Trans-Caspian International Transport Route. The shipment was delivered to Batumi through a multimodal transportation system, with Kazphosphate LLP as the consignor.

In 2025, Batumi Sea Port LLC plans to transship 50,000 tons of Kazakhstani ammonium phosphate.

Furthermore, as part of its efforts to attract new cargo flows, Batumi Sea Port LLC facilitated the first-ever shipments of 37,600 tons of Kazakhstani ammonium nitrate to international markets via the Trans-Caspian International Transport Route in 2024.

KazTransOil JSC directly owns and manages production assets in Georgia through Batumi Oil Terminal LLC.

Batumi Oil Terminal LLC provides services for transshipment, pumping, and storage of crude oil, petroleum products, and liquefied hydrocarbon gas, as well as processed oil products. The terminal operates using its own berths, technological pipelines, and storage facilities.

For reference:

KazTransOil JSC is the national operator of the main oil pipeline. It is part of the group of NC KazMunayGas JSC. It owns a diversified network of main oil pipelines with a total length of 5,400 km and provides operational services for the maintenance of pipelines of third-party organizations with a length of over 5,000 km.
