**Oil exports via the MunaiTas pipeline system increased by 29%**

MunaiTas North-West Pipeline Company LLP, a jointly controlled entity of KazTransOil JSC and CNPC, has reported its operating results for the first ten months of 2026.

During the reporting period, 5 million 526 thousand tonnes of oil were transported through the Kenkiyak–Atyrau trunk pipeline system, an 11% increase compared with the same period in 2025. Of this volume, 4 million 679 thousand tonnes were transported to the domestic market, up 8% year-on-year. A total of 847 thousand tonnes of oil were shipped for export, representing a 29% increase compared with the first ten months of 2025.

Oil turnover along the Kenkiyak–Atyrau trunk pipeline amounted to 2 billion 304 million tonne-kilometres in the first ten months of 2026, up 9% compared with the same period in 2025.

The growth in operating performance was driven by increased oil transportation volumes to the domestic market to ensure crude oil supplies to domestic refineries, as well as higher export volumes in accordance with the schedule approved by the Ministry of Energy of the Republic of Kazakhstan.
