KazTransOil increases oil transportation volumes in the first 10 months of 2026

KazTransOil JSC has released its operational results for the first 10 months of 2026. During the reporting period, 38 million 306 thousand tonnes of oil were transported through the Company’s main pipeline network, an increase of 1 million 323 thousand tonnes compared with the same period last year.

A total of 15 million 522 thousand tonnes of oil was transported through KazTransOil JSC’s main pipeline network to refineries in the Republic of Kazakhstan, up 643 thousand tonnes year-on-year. The breakdown is as follows:

- Atyrau Oil Refinery LLP – 4 million 576 thousand tonnes;
- PetroKazakhstan Oil Products LLP – 4 million 762 thousand tonnes;
- Pavlodar Petrochemical Plant LLP – 5 million 424 thousand tonnes;
- JV CASPI BITUM LLP – 760 thousand tonnes.

Over the first 10 months of 2026, 8 million 373 thousand tonnes of oil were transported via the Atyrau–Samara section of the Uzen–Atyrau–Samara main pipeline. Of this volume, 3 million 723 thousand tonnes were shipped towards the port of Novorossiysk and 1 million 958 thousand tonnes towards the port of Ust-Luga.

The volume of oil transported through the Kazakhstan section of the TON-2 pipeline amounted to 10 million 214 thousand tonnes, an increase of 450 thousand tonnes compared with the same period last year.

Oil deliveries to the system of Caspian Pipeline Consortium-K JSC (CPC-K) totalled 3 million 878 thousand tonnes, up 897 thousand tonnes compared with the 2025 figure.

At the port of Aktau, 2 million 922 thousand tonnes of oil were loaded onto tankers using KazTransOil JSC’s infrastructure, an increase of 288 thousand tonnes year-on-year. Of this volume, 1 million 321 thousand tonnes were shipped via the Baku–Tbilisi–Ceyhan (BTC) pipeline.

During the first 10 months of 2026, oil transit through Kazakhstan to the Republic of Uzbekistan amounted to 81 thousand tonnes, an increase of 77 thousand tonnes compared with the same period last year. Transit volumes to the Kyrgyz Republic totalled 60 thousand tonnes.

Oil freight turnover through KazTransOil JSC’s main pipeline network amounted to 29 billion 781 million tonne-kilometres, exceeding the figure for the first 10 months of 2025 by 136 million tonne-kilometres.

KazTransOil JSC is the national operator of the main oil pipeline system. It is a subsidiary of KazMunayGas NC JSC. The company owns a diversified network of main oil pipelines with a total length of 5,200 km and provides pipeline operation services for third-party organizations, covering an additional 5,000 km of pipelines.
