**KazTransOil JSC aligns export tariff of MunaiTas NWPC with market level**

As part of the update to its tariff policy, KazTransOil JSC has carried out comprehensive work to revise the export tariff of the Kenkiyak–Atyrau main oil pipeline operated by MunaiTas North-Western Pipeline Company LLP. As a result, the tariff has been aligned with the market level and brought in line with the transportation conditions applied by KazTransOil JSC.

Starting from May 19, 2025, the export tariff of MunaiTas NWTC is set at 11,300 KZT per ton per 1,000 km (excluding VAT), replacing the previous rate of 5,912 KZT. This change reflects the need to transition to a more economically viable tariff-setting model.

It is important to note that the majority of MunaiTas’ transportation volumes are directed to the domestic market. The new tariff applies exclusively to export routes.

MunaiTas NWTC is a joint venture between KazTransOil JSC (51%) and CNPC Exploration and Development Company Ltd. (49%).

*KazTransOil JSC is the national operator of the main oil pipeline system. It is a subsidiary of KazMunayGas NC JSC. The company owns a diversified network of main oil pipelines with a total length of 5,200 km and provides pipeline operation services for third-party organizations, covering an additional 5,000 km of pipelines.*
