

KazMunaiGas EP announces its financial results for the year ended December 31, 2006

Astana, 19 March, 2006. JSC KazMunaiGas Exploration Production ("KMG EP" or the "Company") has released today the Company's consolidated financial statements for the year ended December 31, 2006. The financial statements have been prepared in accordance with International Financial Reporting Standards and have been audited by Ernst & Young.

Profit after tax (net income) from continuing operations for 2006 was 122.6 bn Tenge, 180.1% higher than for 2005. The growth in net income was driven by favorable oil market conditions, production growth, continued cost control, release of certain accruals made in earlier periods and recent tax amendments to one of the subsoil agreements.

Commenting on the financial results for 2006, Askar Balzhanov, the CEO of the Company, said "These results mark the culmination of a very successful year for our company highlighted by our Stock Exchange listings in both Kazakhstan and London. These strong financial results position the company very well to pursue our growth strategy going forward."

The Company's revenues for 2006 increased by 18.1% year on year to 412.2 bn Tenge. This was primarily due to a 17% increase in the average realised price from 37,182 Tenge per tonne (38.70 USD per bbl) to 43,498 Tenge per tonne (47.71 USD per bbl) and a sales volume increase of 0.7% to 9.29 mn tonnes (187.3 kbopd). The average realised price went up primarily because of improved export prices. Exports accounted for 73% of 2006 sales in volume terms (71% in 2005).

Operating expenses in 2006 were 194.5 bn Tenge which is 12.5 bn Tenge less than in 2005. The reduction in operating expenses was primarily due to release of a provision for an environmental fine of 11.4 bn Tenge which was successfully challenged by the Company in court in 2006. In addition, materials and supplies expenses were reduced by 10.0 bn Tenge compared to 2005. This was partly offset by an increase in transportation and certain other expenses as well as by an impact of a change in accounting for social projects.

Operating cash flow was 122.2 bn Tenge in 2006, approximately 62.8% higher than for the prior year mainly due to favorable export oil prices and increased sales volumes.

Purchases of property, plant and equipment (capital expenditures, not including purchases of intangible assets, as per Cash Flow Statement) in 2006 were 49.3 bn Tenge or 20.4% less than in 2005, reflecting primarily the disposal of the Atyrau Refinery in 2005. Adjusting for the disposal, capital expenditures remained at approximately the same level.

Cash, cash equivalents and financial assets at the end of 2006 amounted to 391.8 bn Tenge compared to 94.1 bn Tenge at the end of 2005. During 2006 the Company received approximately 251.3 bn Tenge in proceeds from the placement of new shares successfully completed in October 2006 and paid 17.6 bn Tenge in dividends. Borrowings were 59.7 bn Tenge at the end of 2006 compared to 75.1 bn Tenge at the end of 2005.

The full consolidated financial statements, the notes thereto and the Operating and Financial Review are available at the Company's website (www.kmgep.kz)

Forward-looking statements

This document includes statements that are, or may be deemed to be, "forward-looking statements". These forwardlooking statements can be identified by the use of forward-looking terminology, including, but not limited to, the terms "believes", "estimates", "anticipates", "expects", "intends", "may", "target", "will", or "should" or, in each case, their negative or other variations or comparable terminology, or by discussions of strategy, plans, objectives, goals, future events or intentions. These forward-looking statements include all matters that are not historical facts. They include, but are not limited to, statements regarding the Company's intentions, beliefs and statements of current expectations concerning, amongst other things, the Company's results of operations, financial condition, liquidity, prospects, growth, potential acquisitions, strategies and as to the industries in which the Company operates. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances that may or may not occur. Forward-looking statements are not guarantees of future performance and the actual results of the Company's operations, financial condition and liquidity and the development of the country and the industries in which the Company operates may differ materially from those described in, or suggested by, the forward-looking statements contained in this document. The Company does not intend, and does not assume any obligation, to update or revise any forward-looking statements or industry information set out in this document, whether as a result of new information, future events or otherwise. The Company does not make any representation, warranty or prediction that the results anticipated by such forwardlooking statements will be achieved.
