

## **PRESS – RELEASE**

### **Operating results for the first six months of 2017**

**Astana, 27 July 2017.** JSC KazMunaiGas Exploration Production (“KMG EP” or “Company”) announces its operating results for the first six months of 2017.

#### **Production**

Overall, KMG EP, including its stakes in Kazgermunai (“KGM”), CCEL (“Karazhanbasmunai”) and PetroKazakhstan Inc. (“PKI”), produced 5,885 thousand tonnes of crude oil (240 kbopd) in the first six months of 2017, a 3% decrease over the same period of 2016.

Ozenmunaigas (“OMG”) produced 2,703 thousand tonnes (110kbopd), a 3% decrease as compared to the same period of 2016, mainly due to fewer wells drilled. Embamunaigas (“EMG”) produced 1,399 thousand tonnes (57kbopd), 1% less than in the same period of 2016. The total volume of oil OMG and EMG produced was 4,102 thousand tonnes (167kbopd), a 2% decrease compared to the same period of 2016.

The Company’s share of production from CCEL, KGM, and PKI for the first six months of 2017 amounted to 1,783 thousand tonnes of crude oil (73kbopd), which is 6% less than in the same period of 2016, mainly due to a natural decline in production of oil at PKI.

It should be noted that KMG EP is actively studying methods to enhance oil recovery and preparing redevelopment of certain mature fields to stem the natural decline.

#### **Crude oil supplies and sales of oil products**

In the first six months of 2017, the Company’s combined crude oil sales from OMG and EMG were 4,084 thousand tonnes (163kbopd). This includes 2,766 thousand tonnes (110kbopd) of crude oil for export and 1,318 thousand tonnes (53 kbopd) of crude oil to the domestic market, which is 32% of the total sales volume.

Out of 1,318 thousand tonnes (53 kbopd) of crude oil supplied by OMG and EMG to the domestic market, 1,042 thousand tonnes (42 kbopd) were supplied to Atyrau Refinery and 276 thousand tonnes (11 kbopd) were supplied to Pavlodar Refinery.

During the first six months of 2017 sales of oil products were 1,282 thousand tonnes as per the oil processing scheme. For more details about volumes of sales of oil products please see Table No.2.

The Company’s share in the sales from CCEL, KGM, and PKI was 1,763 thousand tonnes of crude oil (72 kbopd), including 769 thousand tonnes (30kbopd) supplied to export markets and 994 thousand tonnes (42 kbopd) to the domestic market, which is 56% of total sales volume.

#### Notes

**KMG EP** is among the top three Kazakh oil producers based on the 2016 results. The overall production in 2016 was 12.2 million tonnes (245 kbopd) of crude oil, including the Company's share in Kazgermunai, CCEL and PKI. The Company's volume of proved and probable reserves excluding shares in the associates, at the end of 2016 was 182 million tonnes (1,327 mmbbl). The Company's shares are listed on the Kazakhstan Stock Exchange and the GDRs are listed on The London Stock Exchange. The Company raised over US\$2bn at its IPO in September 2006.
