

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (unaudited)

For the nine months ended September 30, 2016

Tenge million unless otherwise stated

1. CORPORATE INFORMATION AND PRINCIPAL ACTIVITIES

KazMunaiGas Exploration Production Joint Stock Company (the “Company”) is incorporated in the Republic of Kazakhstan and is engaged in the acquisition, exploration, development, production, processing and export of hydrocarbons and refined products with its core operations of oil and gas properties located in the Pre-Caspian and Mangystau basins of western Kazakhstan. The Company’s direct majority shareholder is Joint Stock Company National Company KazMunaiGas (“NC KMG” or the “Parent Company”), which represents the state’s interests in the Kazakh oil and gas industry and which holds 63.02% of the Company’s outstanding shares as at September 30, 2016 (December 31, 2015: 63.21%). The Parent Company is 90% owned by Joint Stock Company Samruk-Kazyna Sovereign Welfare Fund (“Samruk-Kazyna SWF”), which is in turn 100% owned by the Government of the Republic of Kazakhstan (the “Government”).

The Company conducts its principal operations through the wholly owned subsidiaries JSC “Ozenmunaigas” and JSC “Embamunaigas”. In addition the Company has oil and gas interests in the form of wholly owned subsidiaries, jointly controlled entities, associate and certain other controlling and non-controlling interests in non-core entities. These condensed consolidated interim financial statements reflect the financial position and results of operations of all of the above interests.

2. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard No. 34, *Interim Financial Reporting* (IAS 34) and should be read in conjunction with the Company’s annual consolidated financial statements for the year ended December 31, 2015.

These condensed consolidated interim financial statements are presented in Tenge and all values are rounded to the nearest million unless otherwise stated.

Exchange rates

The official exchange rate of the Kazakhstan Tenge to the US dollar at September 30, 2016 and December 31, 2015 was 335.46 and 339.47 Tenge to the US dollar, respectively. Any translation of Tenge amounts to US dollar or any other hard currency should not be construed as a representation that such Tenge amounts have been, could be or will in the future be converted into hard currency at the exchange rate shown or at any other exchange rate.

3. SEASONALITY OF OPERATIONS

The Company’s operating costs are subject to seasonal fluctuations, with higher capital expenditures and expenses for materials and repair, maintenance and other services usually expected in the later part of the year than in the first half of the year. These fluctuations are mainly due to the requirement to conduct formal public tenders in accordance with procurement rules set by Samruk-Kazyna SWF.

4. ACCOUNTING POLICIES

The accounting policies applied in the preparation of these condensed consolidated interim financial statements are consistent with those applied in the preparation of the annual consolidated financial statements for the year ended December 31, 2015, except as discussed below.

4. ACCOUNTING POLICIES (continued)

The following new standards and amendments to standards are mandatory for the first time for the financial year beginning January 1, 2016:

- IFRS 11 *Accounting for Acquisitions of Interests in Joint Operations (Amendments)*
- IFRS 14 *Regulatory Deferral Accounts*
- IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortisation (Amendments)*
- IAS 27 *Equity Method in Separate Financial Statements (Amendments)*
- IAS 1 *Disclosure Initiative (Amendments)*
- IFRS 10, IFRS 12 and IAS 28 *Investment Entities: Applying the Consolidation Exception (Amendments)*
- IFRS 10 and IAS 28 *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)*
- Improvements to IFRSs 2012-2014 cycle

The adoption of these standards and amendments did not have any impact on the financial position or performance of the Company.

5. PROPERTY, PLANT AND EQUIPMENT

During the nine months ended September 30, 2016 the Company prepaid for and purchased property, plant and equipment with a cost of 67,107 million Tenge (during nine months ended September 30, 2015: 72,645 million Tenge).

Property, plant and equipment with the net book value of 1,533 million Tenge were disposed of by the Company during the nine months ended September 30, 2016, resulting in a net loss on disposal of 532 million Tenge (nine months ended September 30, 2015: 3,556 million Tenge and 71 million Tenge, respectively).

17. COMMITMENTS AND CONTINGENCIES

Operating environment

Kazakhstan continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Kazakhstan economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the Government.

Local market obligation

The Kazakhstan government requires oil producers to supply a portion of their crude oil production to meet domestic energy requirements. The price for such supplies of crude oil prior to April 1, 2016, was subject to agreement with the Parent Company and this price could have been materially below international market prices. If the Government does require additional crude oil to be delivered over and above the quantities currently supplied by the Company, such supplies will take precedence over market sales and will generate substantially less revenue than crude oil sold on the export market, which may materially and adversely affect the Company's business, prospects, financial condition and results of operations.

Starting from April 1, 2016 the Company ceased sales of crude oil to KMG RM and started tolling crude oil at Atyrau Refinery ("ANPZ") and Pavlodar Refinery ("PNHZ") and selling refined products on its own account using KMG RM as a sales agent.

Prior to April 1, 2016 the Company supplied crude oil to the local market by selling to KMG RM, a subsidiary of the Parent Company. Prices for local market sales were previously determined through an annual negotiation process with KMG RM and the Parent Company. In the first quarter of 2016 KMG RM unilaterally set the domestic price. As at the date of these financial statements the Independent Non-Executive Directors of the Company ("the INEDs") have not come to a final decision with respect to the approval of these prices.

Taxation

Kazakhstan's tax legislation and regulations are subject to ongoing changes and varying interpretations. Instances of inconsistent opinions between local, regional and national tax authorities are not unusual. The current regime of penalties and interest related to reported and discovered violations of Kazakhstan's tax laws are severe. Because of the uncertainties associated with Kazakhstan's tax system, the ultimate amount of taxes, penalties and interest, if any, may be in excess of the amount expensed to date and accrued at September 30, 2016.

Value-added-tax (VAT) recoverability

Total VAT claim related to the Company's sale of assets to JSC "Ozenmunaigas" and JSC "Embamunaigas" in 2012 amounted to 46,558 million Tenge. The tax authorities have conducted various audits and have repeatedly denied the Company's requests to have these VAT amounts recognised as currently recoverable. The full amount of this VAT claim has been provided for in 2015.

On August 31, 2016 the Company filed an application for the VAT recoverability in the amount of 57,410 million Tenge, of which on October 10, 2016 the Tax authorities confirmed VAT to be recoverable in the amount of 24,567 million Tenge, which has subsequently been received by the Company (Note 18). This VAT claim was related to the period of 2012-2015.

In these financials, the Company has reversed 24,567 million Tenge of previously accrued VAT allowance. However, in light of recent tax audit results and tax authority rulings the Company assessed the amount of VAT paid in its operating activities that more likely than not will be nonrecoverable from the Government and has provided an additional allowance in an amount of 8,941 million Tenge and 2,264 million Tenge in JSC "Ozenmunaigas" and JSC "Embamunaigas", respectively, as at September 30, 2016.

Mineral extraction tax (MET)

In September 2016 JSC “Ozenmunaigas” has received approval of its application for a temporary reduced rate of MET for the Uzen and Karamandybas fields in Mangystau oblast. The reduced MET rate is set at 9.0% (compared to 13.0% in 2015) for the whole of 2016 on the condition that in 2016 Uzen and Karamandybas fields record losses under tax accounting. The maximum benefit available is expected to be approximately 17 billion Tenge in 2016, which may ultimately be reduced in accordance with current legislation should the JSC “Ozenmunaigas” have taxable profit for 2016. For the 9 months of 2016 the effect of this reduction was equal to 11,549 million Tenge, which was included in these financials. Management is currently forecasting that JSC “Ozenmunaigas” will claim a taxable loss in its final 2016 tax filing and thus recorded MET for JSC “Ozenmunaigas” at the 9.0% reduced rate in these financial statements.

Rent tax

In 2016, changes into the tax legislation were introduced in relation to methodology of calculating the rent tax. On the basis of these changes along with correspondence with the tax authorities the Company has reviewed its rent tax declarations for the period 2012-2013. As a result of this review the Company filed in August 2016 a rent tax return which reduced its current rent tax payable by the amount of 6,291 million Tenge. The Company is currently reviewing its rent tax calculations for 2014-2015, however uncertainty exist as to the final amount of revision, and the ultimate date of filing for such amounts. Therefore, no adjustments to these financials for 2014-2015 reduced rent tax has been made.

2006-2008 tax audit

Following the 2006-2008 tax audit by the Tax Committee of the Ministry of Finance of the Republic of Kazakhstan in 2012, a tax charge including principal and administrative fines and late payment interest of 16,938 million Tenge was levied on KMG EP. The Company disputed the amount and filed an out of court appeal directly to the Ministry of Finance. This was followed by two inspections and discussions with the Ministry of Energy of the Republic of Kazakhstan and in 2014 resulted in a reduction of the total charges to 12,187 million Tenge. Since that time, the Company has appealed the remaining charge through the court system. In August 2016 the Supreme Court of the Republic of Kazakhstan has decided to further decrease the tax charge by 4,093 million Tenge, including 2,401 of principal and 1,692 of penalty. The Administrative Court of Astana on October 14, 2016 based on the decision of the Supreme Court of the Republic of Kazakhstan has decided to decrease the administrative fine by 3,562 million Tenge.

In these financials, the Company has included the reduction of 2,401 million Tenge of principal and 1,692 million Tenge of penalty. The reduction in administrative fine will be recognized at the time when the decision of the Administrative Court of Astana comes into legal force.

Environment

Environmental regulation in Kazakhstan is evolving and subject to ongoing changes. Penalties for violations of Kazakhstan’s environmental laws can be severe. Other than those amounts provided for in provisions (Note 10) management believes that there are no probable environmental liabilities, which could have a material adverse effect on the Company’s financial position, statement of comprehensive income or cash flows.
