These Rules have been developed in compliance with the legislation of the Republic of Kazakhstan and describe the general conditions of the main activity of Kazakhstan Stock Exchange JSC (hereinafter - the Exchange), general conditions of membership on the Exchange, general conditions for the inclusion of securities to the official list of the Exchange, peculiarities of concluding transactions with certain types of financial instruments at exchange trading.

CHAPTER 1. GENERAL PROVISIONS

Article 1. Main concepts and designations

1. The Exchange uses number of designations in its activities, definitions of which are absent in the current legislation of the Republic of Kazakhstan. For the purpose of their unified usage both in the internal documents and activities of the Exchange, and whenever required in the activities of the Exchange's members and its other clients, the Exchange has developed a glossary containing definitions of designations, which is Appendix 1 to these Rules.
2. The Exchange also uses other concepts and terms in its activities, defined in accordance with the regulatory legal acts of the Republic of Kazakhstan.

Article 2. General information on activities of the Exchange

1. The Exchange is a universal market, on which the following exchange markets operate:
 - 1) "stock" market - an organized market for securities, shares of limited liability partnerships;
 - 2) "foreign exchange" market - an organized market for foreign currencies;
 - 3) "derivatives" market - an organized market for financial derivatives.
2. The Exchange maintains a list of financial instruments admitted to circulation on the Exchange (hereinafter referred to as the Exchange list), which also contains information about markets, sectors and categories on which trades are carried out. The rules for compiling the list of financial instruments admitted to circulation on the Exchange are determined by a separate internal document approved by the Exchange's Board of Directors.

The issues of including financial instruments and their presence on markets, sectors and categories of the Exchange list is determined by corresponding internal documents of the Exchange.

3. The Exchange performs the following functions:
 - 1) exploitation and maintenance of trading systems;
 - 2) requirements determination for issuers, whose securities are intended to be included or were included in the list of the Exchange, as well as to securities and other financial instruments that will be admitted (were admitted) to circulation on the Exchange;
 - 3) Provision of access to its members for trading systems in order to conclude transactions with securities and other financial instruments admitted to circulation on the Exchange;
 - 4) training of traders participating on behalf of an Exchange member in trading with securities and other financial instruments traded in the Exchange's trading and clearing systems (hereinafter referred to as trading systems) *(this subparagraph was changed by the decisions of the Exchange's Board of Directors dated November 11, 2020 and June 23, 2021);*

- legislation of the Republic of Kazakhstan on the securities market and internal documents of the Exchange;
- 6) maintaining a register of Exchange traders admitted to trading, suspended from participation in trading (indicating the reason for the suspension), and posting it on the Exchange's Internet resource *(sub-item was changed by a decision of the Exchange's Board of Directors dated October 27, 2020)*;
 - 7) organizing and conducting trades in securities and other financial instruments admitted to circulation on the Exchange;
 - 8) Implementation of monitoring and analysis of transactions with securities and other financial instruments concluded in the Exchange's trading systems;
 - 9) *(this sub-item was removed by a decision of the Exchange's Board of Directors dated May 17, 2020)*;
 - 10) providing the authorized body with information on results of monitoring and analysis of transactions concluded in the Exchange's trading systems, as well as on violation by the Exchange members of requirements of the legislation of the Republic of Kazakhstan on the securities market, internal documents of the Exchange in accordance with the regulatory legal act established by the authorized body
 - 11) Implementation of monitoring the disclosure by issuers of securities admitted to circulation on the Exchange, information in the amount required by the legislation of the Republic of Kazakhstan and internal documents of the Exchange, and providing the authorized body with information on results of such monitoring;
 - 12) Implementation of clearing activities;
 - 13) Implementation of functions of a central counterparty;
 - 14) organization and implementation of monetary settlements for transactions for which the Exchange performs the functions of a central counterparty, or preparation of information necessary for such settlements;
 - 14-1) *(this sub-item was included by a decision of the Exchange's Board of Directors dated 27 July of 2022 and was removed by a decision of the Exchange's Board of Directors dated July 26, 2023)*;
 - 15) provision of consulting, information and other services within the licensed type of activity;
 - 16) conducting analytical investigation on securities market and other financial instruments;
 - 17) implementation of certain types of banking operations in accordance with procedures established by the banking legislation of the Republic of Kazakhstan
 - 18) determination of conditions and procedure for suspension and resumption of trading on the Exchange;
 - 19) monitoring the financial condition of the Exchange members;
 - 20) publication on the Internet resource of the Exchange of information about all corporate events, quarterly financial statements of issuers, whose securities are included in the official list of the Exchange, and members of the Exchange in accordance with procedures established by the rules of the Exchange *(this sub-item was changed by a decision of the Exchange's Board of Directors dated October 27, 2020)*;
 - 21) participation in trading in securities and other financial instruments admitted to circulation on the Exchange, while settling a default and

- performing the functions of a central counterparty on its own behalf and (or) on behalf of trading participants;
- 22) other functions established by the internal documents of the Exchange.

CHAPTER 2. MEMBERS OF EXCHANGE TRADING

Article 3. Exchange Members

1. Participants in exchange trading are exclusively members of the Exchange – professional participants in the securities market and other legal entities who, in accordance with the legislation of the Republic of Kazakhstan, have the right to carry out transactions with financial instruments other than securities, as well as a clearing organization when performing the functions of the central counterparty as part of concluding transactions to resolve the default of an unconscientious/insolvent clearing participant.

Unless otherwise established by the legislation of the Republic of Kazakhstan, individuals and legal entities that are not members of the Exchange and employees of the clearing organization are not allowed to exchange trading.

(This item was changed by a decisions of the Exchange's Board of Directors dated 27 July of 2022 and dated 26 July of 2023)

2. An Exchange member can take part in exchange trading in accordance with the membership categories assigned to it.

CHAPTER 4. ORGANIZATION AND IMPLEMENTATION OF TRADING

Article 11. General provisions for organization and implementation of trading

1. The main trading venue is the Exchange's trading systems.
2. Working with the Exchange's trading systems is carried out in the remote access mode.

3. Main conditions for connecting to the ASTS+ trading and clearing system for working with it in remote access mode are given in the internal document of the Exchange "Rules for working with the trading and clearing system in remote access mode" *(this item was changed by a decision of the Exchange's Board of Directors dated November 11, 2020 and July 01, 2022)*.
4. Trading in financial instruments is held every business day during the trading day. The trading day can be subdivided into separate trading sessions.
5. The procedure for conducting trades (place, time and other basic parameters of conducting trades) is determined by the Exchange internal document "Regulations for trades and operation of the control and collateral system" *(this item was changed by decisions of the Exchange's Board of Directors of March 17, 2020 and October 27, 2020)*.
6. The opening of trades in financial instruments of the stock market is carried out on the basis of an application received by the Exchange, drawn up in the form of Appendix 7 to these Rules, in the manner and within the time frame established by article 11-1 of these Rules.

The termination of trading in financial instruments of the stock market is carried out by a decision of the Exchange Management Board member in charge of the trading division, upon the occurrence of the events specified in Article 11-2 of these Rules, while in the event of redemption of any debt securities, their trading is terminated without a decision of such Exchange Management Board member.

The opening and termination of trades in foreign currencies and derivative financial instruments is carried out by a decision of the Exchange Board, considering the specifics established by the fourth paragraph of this clause.

Unless otherwise established by a decision of the Exchange Management Board, the date of termination of trading in any derivative financial instruments is set based on the relevant specification approved by the Exchange Management Board.

(This item was changed by decisions of the Exchange's Board of Directors of March 17, 2020 and October 27, 2020, of November 11, 2020 and March 10, 2021)

7. Trading on the Exchange is conducted in accordance with the methods of trading, the description of which is given in the internal document of the Exchange "Regulations on methods of trading in trading and clearing systems" *(this item was changed by a decision of the Exchange's Board of Directors dated June 23, 2021 and July 01, 2022)*.
8. The main method of trading in financial instruments is the continuous counter auction method. The fixing method is the reserve method of trading in financial instruments.
9. The standard trading method for the placement or redemption of securities is the method of specialized trading, which does not restrict the right of a trading participant, on whose initiative such trading is held, to choose another method of conducting them with the agreement of the Exchange.

If a different trading method is chosen for placement or redemption of securities, a trading participant, on whose initiative such trading is held, must notify the Exchange in writing of such placement or redemption no later than three business days before the placement or redemption of securities.

10. The Exchange on an ongoing basis receives from the Central Depository (unless otherwise provided by the agreement between the Exchange and the clearing organization) current information:
 - 1) about the owners of trading accounts for accounting of authorized and repurchased securities opened with the Central Depository;
 - 2) about business identification numbers of securities issuers;

- 3) about client codes assigned by the Central Depository to clients of trading participants and used in the stock market.

(This item was included by a decision of the Exchange's Board of Directors dated October 27, 2020 and was changed by a decision of the Exchange's Board of Directors dated July 26, 2023)

Article 11-1. Opening of trades

1. The opening of trading in securities included in the official list of the Exchange for the purpose of their initial offering is opened in accordance with the internal documents of the Exchange "Regulations on methods of trading in trading and clearing systems", "Rules for the placement of state treasury obligations of the Republic of Kazakhstan", "Rules for the subscription to securities" and "Rules for the public offering of securities *(this item was changed by a decisions of the Exchange's Board of Directors dated 27 July of 2022 and dated 26 July of 2023)*.
2. Trades in the process of circulation of securities (hereinafter in this article - trades) included in the official list of the Exchange are opened by the decision of a member of the Exchange Management Board in charge of the Exchange structural unit providing trading activities, on the basis of a memo from this structural unit of the Exchange and an application by the initiator of data admission securities and their market maker (if there is a requirement for the presence of a market maker), within the terms established by these Rules:
 - 1) within 3 months from the date of inclusion of securities to the official list of the Exchange - if these securities are in the "Shares" sector, in this case, if:
 - securities are shares that are included to the official list for the first time in order to conduct an IPO, then trading in these shares must be opened after the completion of the IPO, but no later than 6 months from the date of inclusion of these securities to the official list of the Exchange;
 - the issuer of shares is a subsoil user, then trading in these shares must be opened within 3 months from the date of inclusion of these securities to the official list of the Exchange or within 3 months from the date of obtaining permission from the authorized body in the field of subsoil use to participate in the trading for the sale (sale) of a share in the subsoil use right (depending on which of the terms expires later);
 - 2) within 3 months from the date of inclusion of securities in the Exchange's official list or within 3 months from the date of the first trading on the initial offering of these securities (depending on which of the deadlines expires later) – if these securities are in the "Debt Securities" sector in the "Bonds" category of the "Main" or "Alternative" market or in the "Securities of International Financial Organizations" sector of the "Mixed" market *(this sub-item was changed by a decision of the Exchange's Board of Directors dated 09 April of 2024)*;
 - 3) within 1 month from the date of inclusion of securities to the official list of the Exchange or within 1 month from the date of the first held trades on the initial placement of these securities (depending on which of the terms expires later) - if these securities are in the "Debt securities" sector under the "Commercial bonds" category of the "Main" or "Alternative" market;
 - 4) within 6 months from the date of inclusion of securities in the Exchange's official list – if the securities are in the sector "Derivative securities" or "Islamic securities", or "Government securities" (for foreign government securities) of the "Mixed" market or in the "Bank Certificates of Deposit" sector of the "Main" market or if the securities were issued as part of the restructuring of the obligations of the issuer of these securities *(this sub-item was changed by a decision of the Exchange's Board of Directors dated 09 April of 2024)*;

- 5) within 3 months from the date of inclusion of the securities in the official list of the Exchange - if these securities are in the "KASE Global" sector of the "Mixed" market *(this sub-item was included by a decision of the Exchange Board of Directors dated October 27, 2021)*;
 - 6) within 3 months from the date of inclusion of the securities in the official list - if the securities are in the "Investment Fund Securities" sector *(this sub-item was included by a decision of the Exchange Board of Directors dated October 27, 2021)*.
3. Trading in securities included in the "Government Securities" sector of the "Mixed" market open on the following dates:
- 1) from the business day following the day of inclusion of these securities to the official list - if the securities are issued by the Ministry of Finance of the Republic of Kazakhstan in accordance with the legislation of a foreign state or the National Bank of the Republic of Kazakhstan;
 - 2) from the business day following the day of placement of these securities in the Exchange trading system - if the securities are issued by the Ministry of Finance of the Republic of Kazakhstan in accordance with the legislation of the Republic of Kazakhstan, or local executive bodies.
- At the same time, if the securities are issued by the Ministry of Finance of the Republic of Kazakhstan and are in the official list of Astana International Exchange, then trading in these securities opens from the business day following the day these securities are included to the official list of the Exchange;
- 3) by a decision of the Board of the Exchange for securities issued by the Exchange, without providing a corresponding application.
4. If trading in any securities was not opened within the terms specified in subparagraphs 1) –4) of paragraph 2 of this article, for consideration by the Listing Commission or the Exchange Board (depending on which of the authorities made the decision to include these securities to the official list of the Exchange) the question is raised on the delisting of these securities.
- In this case, on the basis of the filed before the expiration of the terms specified in subparagraphs 1) –4) of paragraph 2 of this article, the application of the admittance initiator by the decision of the Listing Commission of the Exchange / Board of the Exchange (depending on which of the authorities made the decision to include these securities in the official list), the period for opening trades in securities may be extended for any of the following reasons:
- 1) the placement of shares as part of the IPO was not carried out within 6 months after the completion of the IPO;
 - 2) the holder of these securities is one person;
 - 3) there are other reasons why trading in these securities cannot be opened at time specified in it.

(This article was included by a decision of the Exchange's Board of Directors dated March 10, 2021).

Article 11-2. Suspension and termination of trading

1. Trading in securities may be suspended upon the occurrence of events stipulated by other internal documents of the Exchange, and also in cases:
 - 1) receiving information by the Exchange that materially affects the interests of investors taking into account the specifics established by sub-item 10) of this item *(this sub-item was changed by a decision of the Exchange's Board of Directors dated 27 July of 2022)*;

Upon completion of training, the user of the control and collateral system provides a list of his employees in the form of Appendix 3 to these Rules.

5. The user of the control and collateral system must provide the Exchange with an application as a clearing participant according to the form of Appendix 4 to these Rules on the appointment of an authorized trading participant in relation to any clearing client custodial account, with the use of which transactions concluded and/or executed by an authorized trading participant appointed by him, will be confirmed, containing information about the number of the clearing client custodial account *(this item was changed by a decision of the Exchange's Board of Directors dated July 26, 2023).*
6. An authorized trading participant must provide the Exchange with an application in the form in accordance with Appendix 5 to these Rules on registration of a trading and clearing account of the second level, transactions from which they will be executed using the clearing client custodian account of the user of the control and collateral system, in respect of which he is appointed as an authorized trading participant. *(this item was changed by a decision of the Exchange's Board of Directors dated March 17, 2020).*
7. Logging into the control and collateral system under a personal password issued to the authorized employee of the user of the control and collateral system means unconditional acceptance by the user of the control system and ensuring obligations arising from the actions performed by his employee.
8. In order to control the target placement of assets and transfer the fulfillment of claims and obligations under transactions with the CCP and concluded in the interests of the clients of the user of the control and collateral system, the ASTS + trading and clearing system provides for the corresponding operations of transferring the fulfillment of claims and obligations carried out in transfer modes to settlements as from the account of the user of the control and collateral system to the account of the authorized trading participant, and from the account of the trading participant to the account of the user of the control and collateral system .

An operation involving the transfer of claims and obligations must comply with the trading regime in which the transaction is concluded.

9. Information to the users of the control and collateral system based on the results of transactions on trades concluded from the second-level trading and clearing account linked to its clearing client custodian account is provided in electronic form via a guaranteed delivery transport system using cryptographic security tools that ensure the confidentiality and invariability of the transmitted data.
10. Transactions without the CCP that have not been confirmed by the user of the control and collateral system are executed at the expense of the own assets of the trading participant who concluded them in the manner and under the conditions established by the internal document of the Exchange "Procedure for

concluding transactions in securities without the participation of the central counterparty and making settlements according to them (gross calculations)".

Transactions with the CCP that were not accepted for settlement by an authorized trading participant are executed on the account of the user of the control and collateral system in accordance with the internal document of the Exchange "Procedure for concluding transactions in securities with the participation of the central counterparty".

(This item was changed by a decisions of the Exchange's Board of Directors dated March 17, 2020, October 27, 2020 and July 26, 2023).

11. The user of the control and collateral system who appointed him/her is responsible for failure to fulfill obligations to the Exchange under transactions with the CCP concluded by an authorized trading participant.

Responsibility for the untimely and /or unjustified refusal of the authorized trading participant to accept for settlements transactions with the CCP, concluded by him in violation of the law or inconsistency of the parameters of the executed transaction with the parameters of the client's order, to his trading and clearing account is regulated by bilateral agreements between the user of the control and collateral system and the authorized trading participant.

Article 14. Market makers

1. In order to increase liquidity and develop financial instruments, the internal documents of the Exchange provide a possibility of obtaining a market-maker status by a trader in relation to financial instruments admitted to trading on the Exchange.
2. The market maker undertakes to declare and maintain mandatory quotations for certain financial instruments and other obligations arising from the possession of such a market maker status for financial instruments.
3. Market-maker status may be obtained by a trade participant for those financial instruments, transactions with which he has the right to conclude at trades conducted by the Exchange in accordance with the category of his membership on the Exchange.
4. The procedure for assigning and depriving the market-maker status for any financial instrument, as well as the procedure for carrying out the activities of market-makers is established by a separate internal document of the Exchange "Regulations on Market Makers".

Article 15. *(This article was changed by a decision of the Exchange's Board of Directors dated March 17, 2020 and was excluded by a decision of the Exchange's Board of Directors dated 26 July of 2023).*

Article 16. Surveillance over the actions of securities market entities and other persons with securities and other financial instruments carried out in the trading system of the Exchange

1. Actions of securities market entities and other persons in respect of whom there is reason to believe that these actions were committed for the purpose of manipulation in the securities market, including those that comply with the requirements of the regulatory legal act of the authorized body for regulation, control and surveillance of the financial market and financial organizations (hereinafter referred to as the authorized body) regulating the procedure and conditions for recognizing actions of securities market entities and other persons as committed for the purpose of manipulation in the securities market, a report on such actions is sent to the authorized body within the time limits established by the Exchange's internal documents defining the parameters, procedure and

conditions for monitoring and analysis of actions of securities market entities and other persons as committed for the purpose of manipulation in the securities market, but no later than 60 (sixty) calendar days from the day following the day such actions were detected.

2. Recognition of the actions of securities market entities and other persons as committed for the purpose of manipulation in the securities market is carried out by the authorized body based on the results of consideration of the conclusion of the expert committee that considers the issues of recognition of the actions of securities market entities and other persons as committed for the purpose of manipulation, in accordance with the Rules for the creation and operation of the expert committee, as well as its quantitative composition⁴ and is issued by order of the deputy first head of the authorized body.
3. Parameters, procedure and conditions for monitoring and analyzing the actions of securities market entities and other persons as committed for the purpose of manipulation in the securities market, including criteria for significant deviations in price, demand, supply, quantity or volume of trading in securities and/ or derivative financial instruments, are determined by internal documents of the Exchange, including confidential ones, depending on the type, liquidity and/or market value of securities and/or derivative financial instruments, unless otherwise established by the Rules and conditions for recognizing actions of securities market entities and other persons as committed for the purpose of manipulating the securities market⁴.

(This article was changed by a decision of the Exchange's Board of Directors dated 26 July of 2023)

CHAPTER 5. CLEARING AND SETTLEMENT OF TRANSACTIONS

Article 17. Clearing activities

1. The Exchange carries out clearing activities independently only for those financial instruments that are accepted by the Exchange for clearing services in accordance with its internal documents.
2. If in relation to financial instruments of any market or group of financial instruments the Exchange has concluded an agreement with a legal entity licensed to carry out clearing activities, then in this market or in relation to this group of instruments the Exchange does not carry out clearing activities and does not perform the functions of the central counterparty and settlement organization. The Exchange also does not interact with the Central Depository for the purpose of clearing and settlement of such financial instruments. The Exchange transmits the necessary information for trading, clearing and settlements to the clearing organization and receives it from it.

Such a clearing organization independently carries out clearing and performs the functions of the central counterparty and settlement organization in relation to this market or this group of financial instruments, and also interacts with the Central Depository on the basis of internal documents of the clearing organization and relevant agreements.

In relation to financial instruments of the stock market, such a clearing organization is KASE Clearing Center JSC, a subsidiary of the Exchange (hereinafter referred to as the Clearing Center).

3. Only clearing participants of the Exchange have the right to use the clearing services of the Exchange.
4. Conditions and procedure for the Exchange to carry out clearing activities for transactions with financial instruments on the foreign exchange market and derivatives market (as these activities are defined by the Act of the Republic of Kazakhstan "On the Securities Market"), including the rules for the organization and functioning of the risk management system of the Exchange as clearing organization, and the rules for the Exchange to perform the functions of the

central counterparty are regulated by the Exchange's internal document "Rules for execution of clearing activities on transactions with financial instruments.

(This article was changed by a decision of the Exchange's Board of Directors dated 26 July of 2023)

Article 18. Carrying out the activities of the central counterparty

1. The Exchange carries out clearing activities, performing the functions of the central counterparty and not performing the functions of the central counterparty.
An open offer mechanism is applied to transactions with financial instruments concluded by clearing participants – a method of fulfilling contractual obligations on concluded transactions by automatically including the Exchange in transactions as the central counterparty.
2. After the conclusion of a transaction by clearing participants, novation of the parties to the concluded transaction occurs, according to which the Exchange, performing the functions of the central counterparty, becomes a seller for the buyer and a buyer for the seller. Thus, the contractual obligations and requirements of the clearing participants for the concluded transaction are automatically replaced by similar contractual obligations and requirements of each clearing participant with the central counterparty.
3. The Exchange, performing the functions of the central counterparty, guarantees the fulfillment of obligations under transactions arising as a result of novation to each conscientious clearing participant of the Exchange, regardless of the fulfillment by other clearing participants of their obligations to the Exchange in the manner and subject to the restrictions established by the internal document of the Exchange "Rules for execution of clearing activities on transactions with financial instruments".

(This article was changed by a decisions of the Exchange's Board of Directors dated March 17, 2020, dated October 27, 2020 and dated 26 July of 2023)

Article 19. Making settlements on transactions

1. Settlements on transactions with securities (including repo transactions) concluded (carried out) in trading modes with the CCP are carried out by the Central Depository in terms of registration of ownership of securities in the manner established by the internal document of the Exchange "Procedure for concluding transactions in securities with participation of the central counterparty", as well as internal documents of the Central Depository and the clearing organization.
Settlements for transactions with securities (including repo transactions) concluded (carried out) in trading modes with the CCP, in terms of money transfers, are carried out by the clearing organization in accordance with its internal document defining the conditions and procedure for settlements in money for transactions with securities concluded on the stock market with the participation of the central counterparty.
2. Settlements on transactions with securities and money (including repo transactions) concluded (carried out) in trading modes without the CCP are carried out by the Central Depository in the manner established by the internal documents of the Exchange "Rules for execution of repo transactions in the ASTS+ trading and clearing system" and "The Procedure of concluding deals in securities without fulfillment of functions of the central counterparty and executing settlements thereof (gross-settlements)", as well as internal documents of the clearing organization and the Central Depository.
3. Cash settlements for transactions with other financial instruments, in addition to securities, are carried out by the Exchange independently in accordance with the

internal documents of the Exchange, if such financial instruments are accepted by the Exchange for clearing services.

4. For financial instruments in respect of which the Exchange has a valid agreement with the clearing organization, settlements in cash are carried out by such clearing organization.

(This article was changed by a decisions of the Exchange's Board of Directors dated March 17, 2020, dated October 27, 2020 and dated 26 July of 2023)

CHAPTER 6. EXCHANGE INFORMATION

Article 20. Dissemination of exchange information

1. The main approaches of the Exchange to its information policy, including the general principles of disclosing information of the Exchange, the main provisions on the procedure for disclosing information of the Exchange and its information interaction with other persons, on the use of the brand and / or trademarks of the Exchange by other persons are determined by the internal document "Information Policy".
2. The minimum composition of exchange information, the main conditions and procedure for its dissemination, as well as the measure of responsibility of the Exchange when distributing exchange information are regulated by the internal documents "Rules for the dissemination of exchange information" and "Regulation on the conditions for the commercial provision of exchange information".

Article 21. Stock indicators

1. In accordance with the Methods for calculating stock market indicators, the Exchange calculates stock market indicators.
2. In accordance with the Methodology for Calculating Foreign Currency Market Indicators, the Exchange calculates foreign currency market indicators.
3. In accordance with the Methodology for calculating indicators of the money market, the Exchange calculates indicators of the money market.
4. *(This item was excluded by a decision of the Exchange's Board of Directors dated June 23, 2021).*

CHAPTER 7. SPECIFIC FEATURES OF TRADING ON THE STOCK MARKET

Article 22. Conclusion of transactions with securities

1. Trading participants have the right to conclude transactions with securities on their own behalf and at their own expense (so-called dealers) and / or on behalf and at the expense of their clients (so-called brokers).

If a trading participant is a broker acting on behalf of his client, then he is obliged to conclude sale and purchase transactions or repo transactions in accordance with the client's order within the framework of the brokerage agreement, which is a commission agreement *(this paragraph was supplemented by a decision of the Exchange's Board of Directors dated March 17, 2020);*

In relation to a broker acting in the interests of its client without concluding an agreement on the provision of brokerage services (commission agreement), and in case of when his client applies to the Exchange and / or another third party, the Board of Directors of the Exchange has the right to make a decision to collect a forfeit from such a trading participant (fine) in the amount of 1,000 monthly calculation indices.

If the situation specified in paragraph three of this article in relation to the same trading participant is repeated one or more times, the Exchange Board of Directors is entitled to make a decision to exclude such a trading participant from the Exchange members in all categories.

2. On the stock market, the Exchange's trading system provides for the possibility of concluding transactions in trading modes with the CCP, as well as concluding transactions in trading modes without the CCP (*this paragraph was changed by a decision of the Exchange's Board of Directors dated July 26, 2023*).

In trading modes with the CCP, trading in financial instruments are held, which are divided into groups depending on the type of securities and the method of collateral when concluding transactions. For all financial instruments included in one or another group, the same set of trading modes is defined in which they can be traded.

Securities included in the T + List are admitted to trading modes with the CCP on terms of partial collateral; securities that are not included in the "T + List" are admitted on full coverage terms.

A security included in the T + List can be traded in any mode with the condition of full coverage. A security included in the T + List is traded on a full coverage basis with respect to securities obligations in all modes established for it, if the "prohibition on short sales" sign is set for it.

Securities accepted as collateral for transactions concluded on the terms of partial collateral form the "T + Collateral List".

The T+ List and the T+ Collateral List are approved and revised in accordance with the internal document of the clearing organization (*this paragraph was changed by a decisions of the Exchange's Board of Directors dated October 27, 2020 and dated July 26, 2023*).

3. The ASTS+ trading and clearing system provides the following modes depending on the purposes of their use:
 - 1) main trading modes: trading modes with the CCP and trading modes without the CCP;
 - 2) modes "Transfers for settlements";
 - 3) modes "Transfers of collateral";
 - 4) trading modes for settling defaults.

(This item was changed by decisions of the Exchange's Board of Directors dated March 17, 2020 and dated July 26, 2023)

4. The modes listed in clause 3 of this article are approved by a separate internal document of the Exchange "Lists of trading modes and operations of the ASTS + trading and clearing system" published on the Exchange's Internet resource (*this item was changed by a decision of the Exchange's Board of Directors dated October 27, 2020*).

5. The conditions and procedure for concluding purchase and sale transactions with the CCP are established by the internal document of the Exchange "Procedure for concluding transactions in securities with participation of the central counterparty."

Conditions and procedure for concluding purchase and sale transactions without the CCP are established by the internal document of the Exchange "The Procedure of concluding deals in securities without fulfillment of functions of the central counterparty and executing settlements thereof (gross-settlements).

(This item was changed by decisions of the Exchange's Board of Directors dated March 17, 2020, October 27, 2020 and July 26, 2023)

6. The Exchange's trading systems provide for the performance of repo transactions in two ways: - by the "direct" method - at trades conducted by the

method of concluding direct transactions, and by the "automatic" method - at the trades conducted by the order-driven market method *(this item was changed by a decision of the Exchange's Board of Directors dated 27 July of 2022)*.

- 6-1. The operations specified in item 6 of these Rules are concluded with the participation of the central counterparty and/or without the participation of the central counterparty *(this item was included by a decision of the Exchange's Board of Directors dated March 17, 2020 and was changed by a decision of the Exchange's Board of Directors dated 26 July of 2023)*.
7. The conditions and procedure for executing repo transactions are regulated by the Exchange's internal documents "Rules for Conducting Repo Transactions in the ASTS + trading and clearing system" and "Specification of repo transactions carried out "automatically" *(this item was changed by decisions of the Exchange's Board of Directors dated March 17, 2020 and October 27, 2020)*.

Article 23. Notification of the authorized body about critical events

1. The exchange notifies the authorized body of the following critical events:
 - 1) change in the price of the last deal with shares of any denomination included in the official list of the Exchange in the "Premium" category, concluded at the trading session of the current day, by 15 or more percent relative to the price of the last executed deal with a share of this denomination, which was concluded during the last the previous successful trading session (that is, the trading session during which at least one deal was concluded with a share of this name);
 - 2) change in the price of the last deal with shares of any denomination included in the Exchange's official list in the "Premium" category, concluded at the trading session of the current day, by 15 or more percent relative to the price of a previously executed deal with a share of this denomination, which was concluded during the current trading session;
 - 3) change in the stock market index by 5 percent or more relative to the last value of this index for the previous trading day;
 - 4) change in the stock market index by 5 percent or more relative to the previously established value of this index for the current trading day.
2. Notification of the authorized body about critical events provided by paragraph 1 of this article shall be carried out before 17.50 Almaty time on the day of occurrence of such events.
3. In the event of critical events provided by paragraph 1 of this article, the broker shall perform the following actions:
 - 1) generates a notification indicating the results of the analysis of the situation on the organized securities market, which entailed the emergence of a critical event;
 - 2) sends the generated notification via e-mail and / or facsimile message to the authorized body;
 - 3) controls the receipt by the authorized body of the notification sent to its address.

Article 24. Suspension of trading due to critical events

1. For the purposes of this article, a change in the price of securities of any denomination is defined as a change in the price of the last transaction with securities of this denomination, concluded at the trading session of the current day, relative to the price of the last executed transaction with securities of this denomination, which was concluded during the last previous successful trading

session (that is to say, that trading session during which at least one transaction with securities of this denomination was concluded).

2. The Exchange suspends trading in the following cases:
 - 1) when the price of shares in the official list of the Exchange in the "Premium" category decreases by 30 or more percent in relation to the price formed at the time of the closing of the trading day preceding such a decrease;
 - 2) if the share market index decreases by 15 percent or more in relation to the last value of this index, established on the first or second trading day, preceding such a decrease, the Exchange suspends trading in all shares in the official list of the Exchange;
 - 3) upon receipt by the Exchange of a notification by the issuer of the application to the authorized body on amendments and / or additions in the prospectus for the issue of debt securities in connection with the restructuring of the issuer's obligations, the Exchange suspends trading in these debt securities.
3. The Exchange also has the right to suspend trading in securities in the following cases:
 - 1) a change in the price of securities by 50 percent or more, in this case:

the transaction contributed to a further change in transaction prices during the current trading day from the transaction price from which a price change of 50 percent or more was recorded, and/or

the transaction volume exceeds five times or more the total volume of previously concluded 10 transactions, and/or

from any trading participant on the current trading day, but no later than 30 minutes before the end of trading, the Exchange received an appeal about the negative impact of the concluded transaction on the investor(s);

(this sub-item was changed by a decision of the Exchange's Board of Directors dated 09 April of 2024)
 - 2) deterioration of the quality of securities to the extent that significantly threatens the interests of investors;
 - 3) in case of a technical failure in the operation of the Exchange's trading systems;
 - 4) other factors that threaten the interests of all participants in trading in securities, investors and the Exchange.
4. Suspension of trading in shares in the cases established by sub-items 1) and 2) of item 2 of this article is carried out in the main trading modes automatically in the Exchange's trading system counterparty *(this paragraph was changed by a decision of the Exchange's Board of Directors dated 26 July of 2023)*.

Suspension of trading in debt securities in the case established by item 3) of item 2 of this article is made by the Exchange on the day of receipt of the notification on the submission of the application specified in sub-item 3) of item 2 of this article.

The Exchange broker shall immediately notify the Deputy Chairperson of the Exchange Management Board who is in charge of trading on the suspension of trading specified in the first and second paragraphs of this clause.
5. Suspension of trading in securities in cases established by sub-item 3) of item 2 and item 3 of this article is carried out by decision of the Exchange's Management Board for certain trading modes and for the period established by such a decision *(this item was changed by a decision of the Exchange's Board of Directors dated 26 July of 2023)*.

6. Within one hour from the moment of suspension of trading in securities in accordance with clauses 2 and 3 of this article, the Exchange notifies of such suspension:
 - 1) authorized body by e-mail and / or fax;
 - 2) Exchange members by publishing a corresponding message in the trading systems of the Exchange.
7. If, after the Exchange has consulted with the authorized body, a letter from the authorized body has not been received to extend the suspension of trading in securities, trading in securities of any denomination, suspended in accordance with sub-items 1) and 2) of item 2 of this article, renewed with the beginning of a new trading day for securities, which include securities of this denomination.
8. The resumption of trading during the trading day in which they were suspended is allowed in the following cases:
 - 1) the suspension of trading was the result of a trader's mistake;
 - 2) the suspension of trading was the result of a technical failure in the operation of the Exchange's trading systems;
 - 3) if an order to resume trading has been received from the authorized body.
9. Trades in debt securities, suspended on the founding specified in subparagraph 3) of paragraph 1 of this article, shall be resumed by the Exchange at the beginning of the next trading session after receiving a notification from the issuer about the state registration of changes and/or additions to the prospectus for the issue of debt securities.

Chapter 8. SPECIFIC FEATURES OF TRADING ON THE FOREIGN EXCHANGE MARKET

Article 25. Conclusion of transactions with foreign currencies

1. Members of the Exchange have the right to conclude transactions in foreign currencies on their own behalf, at the expense of their own assets and / or at the expense of clients' assets *(this item was changed by a decision of the Exchange's Board of Directors dated February 26, 2020).*
- 1-1. Subject to the rights of the Trading Participants specified in item 1 of this Article, conclusion of trades in foreign currencies shall be effected on own and/or aggregated client trading and clearing accounts *(this item was included by a decision of the Exchange Board of Directors dated December 30, 2021).*
- 1-2. Registration of own trading and clearing account of the trading participant is carried out at his admission to trading on the foreign exchange market.

For registration of the aggregated client trading and clearing account, the Trading Participant shall send to the Exchange the application, drawn up in the form of Appendix 5-1 to these Rules (hereinafter for the purposes of this article - the application), for opening of the aggregated client trading and clearing account, trades from which shall be executed at the expense of its clients.

(This item was included by a decision of the Exchange Board of Directors dated December 30, 2021).

- 1-3. To cancel the registration of the aggregated client trading and clearing account, the Trading Participant shall send to the Exchange the following application in free form with indication of the relevant code of the trading and clearing account.

The registration of the aggregated client trading and clearing account shall be cancelled only in case of complete closure of the previously opened positions in this account.

(This item was included by a decision of the Exchange Board of Directors dated December 30, 2021)

2. The foreign exchange market consists of two sectors, in which the following transactions with foreign currencies are carried out:
 - 1) transactions of purchase and sale of foreign currency with the timing of settlements on them, established by separate internal documents of the Exchange, and transactions with foreign currency (conventionally called "short-term currencies swap");
 - 2) transactions with derivative financial instruments, the underlying asset of which is foreign currency.

(this item was changed by a decision of the Exchange's Board of Directors dated November 11, 2020).

- 2-1. An Exchange member of the "currency" category is allowed to trade in derivative financial instruments if he has a valid license of the Authorized Body or the right to carry out broker and / or dealer activities in the securities market, as provided by the legislation of the Republic of Kazakhstan *(this item was included by a decision of the Exchange's Board of Directors dated November 11, 2020).*

- 2-2. Trading modes in which transactions of purchase and sale of foreign currency and transactions with derivative financial instruments can be concluded are determined by the Exchange internal document "List of Trading Modes in the Currency Market", approved by the Board of the Exchange and published on the website of the Exchange *(this item was included by a decision of the Exchange's Board of Directors dated November 11, 2020).*

3. Transactions with foreign currencies can be concluded without collateral, on the terms of partial collateral and with full coverage, depending on the requirements for the clearing participant established by the internal document of the clearing organization regulating the procedure for carrying out clearing activities *(this item was changed by a decision of the Exchange's Board of Directors dated July 26, 2023).*

4. For a foreign currency trading participant who is a participant in a currency swap or foreign currency transactions, this transaction has a "buy-sell" character if, in accordance with the foreign currency purchase and sale transaction included in this transaction with an earlier settlement date, this trading participant has sold the foreign currency and conversely, has a "buy-sell" character, if, according to the specified transaction, he acquired foreign currency *(this item was supplemented by a decision of the Exchange's Board of Directors dated November 11, 2020)*

5. The difference between the closing and opening prices is used as the price of a currency swap transaction and a foreign currency transaction.

Opening and closing prices for currency swap transactions and transactions with foreign currency are determined in accordance with the internal document of the Exchange "Specification of currency swap transactions and transactions with foreign currency ", approved by the Board of the Exchange.

(This item was changed by a decision of the Exchange's Board of Directors dated November 11, 2020)

6. Standard conditions and parameters of trading in derivative financial instruments are determined by the specifications approved by the Board of the Exchange *(this item was included by a decision of the Exchange's Board of Directors dated November 11, 2020).*

Article 26. Suspension of trading in foreign currencies

1. Trading on the Exchange currency market in all or individual financial instruments by a decision of the Board member who is responsible for coordination and control of the Exchange subdivision that provides trading activities may be suspended in the event of a technical failure to resolve it in

accordance with the Exchange internal document "Rules for resolving issues in case of technical failures in the operation of the Exchange software and hardware complex".

2. The Exchange Board suspends trading in all or individual financial instruments of the foreign exchange market by written order of the National Bank of the Republic of Kazakhstan for the period specified in such order (*this article was changed by a decision of the Exchange's Board of Directors dated March 17, 2020 and March 19, 2020*).

CHAPTER 9. SPECIFIC FEATURES OF TRADING ON THE MARKET OF DERIVATIVES

Article 27. Types of derivative financial instruments

1. There are two sectors of derivative financial instruments in the Exchange's trading system:
 - 1) currency derivative financial instruments, that is, derivative financial instruments, the underlying assets of which are national and / or foreign currencies;
 - 2) stock derivative financial instruments, that is, derivative financial instruments, the underlying assets of which are stocks, bonds or stock market indicators.
2. The standard terms and parameters of a derivative financial instrument used as the subject of trading, as well as the procedure for the occurrence, modification and termination of obligations under a derivative financial instrument are determined by its specification approved by the Exchange's Management Board (*this item was changed by a decision of the Exchange's Board of Directors dated June 23, 2021*).

Article 28. Conclusion of transactions with derivative financial instruments

1. Trading participants have the right to enter into transactions with derivative financial instruments on their own behalf and at their own expense and/or on behalf of and at the expense of their clients.
2. Taking into account the rights of trading participants defined by paragraph 1 of this article, transactions with derivative financial instruments are concluded on their own and / or client trading and clearing accounts
3. In order to register a trading and clearing account specified in paragraph 2 of this article, a trading participant must send to the Exchange an application issued in the form of Annex 6 to these Rules (hereinafter, for the purposes of this article, an application) to open his own or a client trading and clearing account, transactions from which will be executed at the expense of such a participant or his client.
4. To cancel the registration of its own or client's trading and clearing account, the trading participant sends a free-form application to the Exchange with an indication of the corresponding code of the trading and clearing account in it.

Cancellation of the registration of your own or client's trading and clearing account is carried out only in case of complete closure of previously opened positions on this account.
5. The conclusion of transactions with derivative financial instruments means the acquisition by its parties of rights and / or obligations under derivative financial instruments in accordance with their specifications.
6. Obligations under concluded transactions with derivative financial instruments are fulfilled in accordance with the internal document of the Exchange "Rules for

clearing transactions with Financial Instruments" and the specifications of the relevant derivative financial instruments.

(This article was changed by a decision of the Exchange's Board of Directors dated June 23, 2021)

Article 29. Suspension of trading in derivative financial instruments

1. If there is a need to change the upper and / or lower limits of the market risk assessment range, the upper and/or lower limits of the interest rate risk assessment range of a derivative financial instrument, including in connection with the deviation of the prices of derivative financial instruments by the amount established according to the internal document of the Exchange "Methodology for determining the risk parameters of financial instruments" for a certain period of time during the trading session, the Exchange suspends trading on this derivative financial instrument to change the specified limits *(this item was changed by a decision of the Exchange's Board of Directors dated June 23, 2021)*
2. The suspension of trading in derivative financial instruments in accordance with paragraph 1 of this article is carried out automatically by the Exchange's trading system.
3. The Exchange has the right to suspend trading in all derivative financial instruments in the following cases:
 - 1) in the event of the insolvency of one bidder or several bidders, which poses a significant threat to the functioning of the derivatives market;
 - 2) in the absence of trading in derivative financial instruments for 30 consecutive trading days;
 - 3) in case of a technical failure in the operation of the Exchange's trading system
4. Suspension of trading in derivative financial instruments upon the occurrence of any of the cases provided for in subparagraphs 1) and 2) of paragraph 3 of this Article may be made only by a decision of the Exchange's Management Board. The decision of the Exchange's Management Board to suspend trading in derivative financial instruments should contain information about the reasons and the period of such suspension.
5.
