#### KASE Index shares

Last week, KASE Index reached another historical maximum of 6,034 points. However, during the week, KASE Index declined and at the end of the trading session on Friday it was fixed at 5,990 points.

KazMunayGas paid dividends on ordinary shares for 2024. We remind you that on May 29, the company's shareholders decided to pay dividends in the amount of 491.7 tenge per share. Also, KazMunayGas announced the signing of a contract for the exploration and production of hydrocarbons at the Zhylyoi site in the Atyrau region. However, the external background had a negative impact on the market value of the securities. After the announcement of a truce between Iran and Israel, oil prices fell sharply - the decrease in the geopolitical premium in Brent and WTI quotes became a factor in pressure on KazMunayGas shares, whose dynamics traditionally correlate with oil prices. The company's shares lost 1% over the week.

Kaspi Bank, a subsidiary of Kaspi.kz, has decided to pay dividends on ordinary and preferred shares for 2024 in the amount of 1,070 tenge per share. The fintech company's shares have fallen by 0.5% over the week.

Shares of other financial companies included in KASE Index showed positive dynamics last week. Shares of Bank CenterCredit rose by 2%, while shares of Halyk Bank rose by 1%.

Air Astana reported that from June 17 to 23, in accordance with the buyback program, it purchased 130 thousand shares and 1.7 thousand global depositary receipts for a total of \$204 thousand. The average weighted purchase price of shares ranged from 750 to 795 tenge, and the average price of global depositary receipts was \$6. The company's shares lost 2% over the week and amounted to 735 tenge.

On the money market, the overnight repo rate TONIA decreased and, by the end of the week, amounted to 15.50% per annum. The yield on overnight currency swap transactions in US dollars decreased to 9.68% per annum over the week.

#### Main Features of National Bank Notes Placements

June 23 – 27, 2025

In June, the tenge exchange rate weakened by 1.7%, to 519.73 tenge per US dollar. The average daily trading volume on Kazakhstan Stock Exchange over the month decreased from 238 mln US dollars to 235 mln US dollars. The total trading volume amounted to 4.7 bn US dollars.

Currency sales from the National Fund in June amounted to 800 mln US dollars, which allowed for the allocation of transfers to the republican budget. The share of sales from the National Fund amounted to 17% of the total trading volume or about 40 mln US dollars per day.

According to preliminary forecasts of the Government's applications for the allocation of transfers to the republican budget in July, the National Bank expects to sell currency from the National Fund in the amount of 600 to 700 mln US dollars.

As part of the mirroring operations, 213 bn tenge were sterilized in June. During July, the equivalent of 290 bn tenge is expected to be sold for these purposes.

The National Bank did not conduct currency interventions in June.

The volume of sales of foreign currency proceeds for the past month within the framework of the norm on the mandatory sale of a portion of foreign currency proceeds by entities of the quasi-public sector amounted to approximately 322 mln US dollars.

In order to maintain the foreign currency share of the UAPF pension assets in the long term at a level of at least 40%, the National Bank in June made purchases of foreign currency at exchange trades, the total amount of which amounted to 188 mln US dollars or about 4% of the total trading volume.

Note: The chart and the table are based on the official market rates of the NBK. NBK rates may differ from KASE rates.
